

## **Governance, Planning and Multi-sectoral approach**

17-18 November 2011, Bangkok

### **Identify key issues**

- Lack of urban planning
- Urban planning lagging behind urban expansion/densification
- Food supply/production issues not adequately recognised by agencies responsible for urban planning/governance
- Inter-sectoral/agency coordination
- Inadequate regulation/in-effecienies in implementation of regulations

### **Identify key stakeholders, beneficiaries and responsibilities**

- Government
  - Planning
  - Regulation
  - Execution
  - Review and assessment
  - Horizontal(Inter-agency) and Vertical(central, state, local bodies) integration
- Producer (Supply Chain Mgmt)
  - Producer
  - Processor
  - Logistics
  - Retail/Distributor
- Consumer

**Identify actions that would lead to resilient food systems**

- Creation/strengthening of inter sectoral agency
- Agency to be an integral part of urban planning process as other sectoral agencies
- Strengthening the governance

**Thank you.**
