***Joint FAO/WHO Meeting on Pesticide Residues (JMPR)  
Roster of Experts on Pesticide Residues***

This roster consists of scientific experts on pesticide residues who have either submitted applications in response to the call for experts or are members of the Expert Panel on Pesticide Residues. The applications were reviewed by an outside referee and by the FAO Joint Secretary of JMPR and selections were made on the basis of the criteria outlined in the call for experts. Members of the roster will be considered for future Joint Meetings on Pesticide Residues and for other activities relating to pesticide residues in food, but inclusion on the roster does not guarantee such participation. When making selections for individual meetings a balance of scientific expertise and geographical representation will be considered. Both Members and Temporary Advisors are chosen from the roster. The roster is dynamic. Experts are placed on it for an initial period of four years or until their term on the Expert Panel on Pesticide Residues expire, and new experts are added on the basis of consideration of new applications.

<b>Name</b>	<b>Affiliation</b>	<b>Country</b>
Ambrus, A.	Hungarian Food Safety Office	Hungary
Banasiak, U.	Federal Institute for Risk Assessment	Germany
Bhula, R.	National Registration Authority	Australia
