Carlo Cafiero is the HLPE-FSN drafting team leader of the report #17 on "Data collection and analysis tools for food security and nutrition: towards enhancing effective, inclusive, evidence-informed, decision making".

He is a senior statistician and economist at the Food and Agriculture Organization of the United Nations (FAO) in Rome, Italy, where he leads the team in charge of producing food security and nutrition statistics at global, regional, and country levels and is the FAO focal point for the food security indicators used to monitor SDG Target 2.1.

Prior to joining FAO in 2011, he taught statistics, agricultural economics and policy at the Graduate school of Agriculture at the University of Naples Federico II, Italy. His research interests have covered risk management in agriculture, the econometrics of storable commodity prices and, more recently, measurement issues in the fields of food security and nutrition. He holds a PhD in agricultural and natural resource economics from the University of California at Berkeley, a Doctoral degree in agricultural policy from the University of Naples Federico II, Italy and a MS in agricultural economics from the University of Arizona.
