

Leveraging data-driven evidence-base and frameworks to build more resilient food systems

Friday 24 October 2025 - 08:30 AM CEST (07:30 AM GMT)

Philippines room

Speakers and panellists

Dr. Shouro Dasgupta (Fondazione CMCC)

Professor Jessica Fanzo, Columbia University

Dr. Lawrence Haddad, GAIN

Dr. Lauren Phillips, FAO

Professor Michael Puma, Columbia University

Professor Elizabeth Robinson (Grantham Research Institute, LSE)

Dr. Nicholas Sitko, FAO

CFS delegate, Burkina Faso

This event will demonstrate how monitoring frameworks and early warning systems such as Food Systems Countdown Initiative can be leveraged to influence food security and nutrition policies. This data-driven evidence combined with local knowledge enables proactive planning for farmers, workers, and donors. Diverse stakeholders will discuss the implications of integrating of tracking and forecasting capabilities into national and regional policy frameworks.
