

Dear CFS secretariat,

We find the document very solid and rich. Please find our comments as following:

Page 5: We support maintaining the mention of **mainstreaming gender equality, women and girls empowerment etc** at the level of the strategic objectives.

Page 9: under iv what are the specific SDGs within the mandate of CFS? SDG1 and 2? If yes why not mentioning them?

Page 14, column on the left, first bullet, we propose to remove the quote around monitoring, because this is a solid, quantitative monitoring that RBAs and UNICEF and WHO are doing for the SOFI.

Page 15: under Develop new activities, fifth bullet: we propose to add **and their experiences with the use and application of CFS products**.

Best regards
Liliane
