

**Agreed revisions and revisions under discussion following discussions on 14 June meeting and on-going bilateral meetings of the co-facilitators**

**Agreed revisions**

*Please note that the CFS Vision in the box at the beginning of the document has been adjusted with the original text in the Reform Document. Other editorial changes include: change “core workstream” to “supportive activities” for consistency; Plenary with capital P; removal of “CFS” in front of “Plenary” and “Bureau”.*

CORE Para 8: Gender equality, **women’s and girls’ rights** and women’s empowerment in the context of food security and nutrition will be mainstreamed in all CFS workstreams and products.

CORE Para 9 and ANNEX A Para 2: CFS will however continue to **perform** Roles 3 and 4 by facilitating and providing advice on approaches to improving FSN and **promoting the use and application of CFS products** at country and regional levels

CORE Para 14, 17 and 23: change “thematic activities” into “**thematic workstreams**” for consistency.

CORE Para 17: added last sentence to fully reflect the MYPOW PROCESS so to address concerns from some member states: **The selection of CFS activities will take into account resources and workload.**

CORE Para 20: consensus reached after the friends of co-facilitators meeting.

Para 20: As CFS is an intergovernmental body, the HLPE priority setting will receive guidance from the Plenary and Bureau. The preparation of MYPoW will include the preparation of HLPE reports as part of the proposals as appropriate. The production of HLPE reports/analyses as an input/background document for CFS discussions will be based on a clear understanding that, **through the Plenary and the Bureau, the report aims to support CFS members and other stakeholders in designing strategies and programs for addressing food insecurity and malnutrition, how it will feed into the process considering the timescale, and the availability of information on the subject under discussion. The Plenary can continue to request HLPE to produce a note on critical and emerging issues.** Plenary will discuss this note and provide guidance to the MYPOW process.

CORE Para 23: change “comprehensive planning phase” into “**MYPoW preparation process**” for consistency.

**Revisions under discussion (with paragraphs in brackets for upcoming discussion) (please also kindly note that some stakeholders have agreed on the suggested language after today’s meeting):**
