

Switzerland's inputs to the CFS contribution to the HLPF 2026

- In addition to the hunger figures (CFS 53 Para 17 i)), statements on the prevalence of undernourishment and moderate or severe food insecurity, as well as child wasting and child overweight (CFS 53 Para 17 ii) + iii)) should also be included on page 5.
- Chapter 4 lists various CFS policy recommendations for each SDG and highlights one or more particularly important recommendations. We would appreciate it if only one recommendation were highlighted per policy document, as this would appear less random than a varying number of bullet points.
