

CFS policy recommendations on Reducing inequalities for Food Security and Nutrition

Preliminary outline

Rationale (excerpts from MYPoW and further reflections)

Recommendations:

1) Tackle inequalities within food systems

- A. Access to natural resources**
- B. Institutions and partnerships**
- C. Investments in supply chains and in disadvantaged areas**
- D. Food environments including trade, retail, processing**

2) Tackle inequalities in related systems

- A. Access to services and resources that impact FSN**
- B. Trade, investment and debt governance related to FSN**

3) Tackle social, political and other drivers of inequalities

- A. Systemic drivers of inequality**
- B. Climate, ecological, political and economic crises and FSN related actions**

4) Strengthen data and knowledge systems to enable improved understanding and monitoring of equity in FSN-relevant domains

- A. FSN data collection and analysis**
- B. FSN related research**
