Improving Statistics for Food Security, Sustainable Agriculture, & Rural Development “Action Plan for Africa”

Launching & Training Workshop on Country Assessment

19 - 21 June 2012, Kigali - Rwanda

Statistical Capacity Building Division
Statistics Department
Economic Complex
African Development Bank Group

**AFRICAN DEVELOPMENT
BANK GROUP**

Workshop objectives, expected results and agenda

Objectives of the Workshop

Overall objective

- To train participants on the effective use of the country assessment instruments in compiling information related to agricultural statistical capacity needs.

Results of country assessments

Will mainly be used to:

- Develop country profiles (showing strengths/weaknesses of the statistical systems) and identification of countries capacity needs
- Group & ranking countries in terms of data quality & statistical development levels as a basis level of assistance
- Develop relevant national action plans for the program;etc

Expected results

- The workshop is expected to provide participants with the information and skills on conducting and coordinating the country assessment activities at the national level.
- The workshop will provide an opportunity to discuss and agree on the national coordination responsibilities and roles, as well as operational arrangements within each country.

Agenda

**AFRICAN DEVELOPMENT
