

Improving Statistics for Food Security, Sustainable Agriculture, and Rural Development

Action Plan for Africa (2011-2015)

**Launching and Training Workshop on Country Assessment
*19 - 21 June 2012, Kigali – Rwanda***

REPORT

July 2012

Objectives and organization of the workshop

The workshop on Improving Statistics for Food Security, Sustainable Agriculture and Rural Development – Action Plan for Africa (2011-2015) held in Kigali from 19th to 21st June 2012 was jointly organized by the National Institute of Statistics Rwanda (NISR), Food Agriculture Organization of the United Nations (FAO) and African Development Bank (AfDB).

The main objective of the workshop was to appraise the participants on the Action Plan for Africa (2011-2015) of the Global Strategy on Improving Agriculture and Rural Statistics, and to train them on the effective use of the Country Assessment instrument/tools for compiling information related to agriculture statistical capacity needs (See the agenda of the meeting in Annex 1).

The workshop was attended by 86 participants including agricultural statistics experts from Ministries of Agriculture and National Statistical Offices (NSO) from regional member countries, and representatives and development partners from United Nations Economic Commission for Africa (ECA), Africa Union Commission (AUC), Food and Agriculture Organization of the United Nations (FAO), US Department of Agriculture (USDA), the UK Department for International Development (DfID), and the World Bank (See the list of participants in Annex 2).

The opening ceremony of the workshop was officiated by the Resident Representative for the AfDB in Rwanda, the Director General of NISR and the Division Manager of Statistical Capacity Building of the African Development Bank (AfDB).

Topics presented and discussed at the Workshop

- a) Global Strategy for Improving Statistics for Food Security, Sustainable Agriculture, and Rural Development.
- b) Action Plan for Africa (2011-2015) of the Global Strategy
 - i. Governance arrangements
 - ii. Technical Assistance component
 - iii. Training Component
- iii. Research Component
- c) Use of the Country Assessment instruments/tools:
 - i. Questionnaires
 - ii. Online application for data capture and submission.
- d) Operational arrangements for compiling country assessment data at country levels.

Outcomes of the workshop

The workshop participants appreciated the workshop on the Action Plan and its potential to improve agricultural and rural statistics in Africa, and agreed on the way forward regarding the conduct of the country assessment instruments, the web-based application for country assessment, and operational arrangements for compiling country assessment data at national level (See Annex 3). In brief, the country assessment instruments developed were adopted

with some few changes being proposed. The same applies to the web-based application to be used for the country assessment data entry, submission and management. Participants agreed also on clear operational arrangements that would ensure the sustainability and country ownership of the implementation of the Action Plan for Africa. In that respect, they recommended that the ICP model should be used as reference. In order to ease communication, share information and experiences between countries, it was recommended that a web-based Forum of Agricultural Statisticians in Africa (FASIA) should be established and integrated into the online Country Assessment application. As a way forward, a roadmap for the implementation of the country assessment as well as other related activities was adopted (See Annex 4).

Annex 1 – Agenda of the meeting

Improving Statistics for Food Security, Sustainable Agriculture, and Rural Development - Action Plan for Africa

Launching and Training Workshop on Country Assessment
19 - 21 June 2012, Kigali - Rwanda

Tuesday, 19 June 2012		
08:30- 09:00	Registration	
Chair: Director, NISR SESSION 0: Opening remarks, meeting objectives and expected outcomes, and presentation of the agenda		
09:00- 09:30	Opening remarks	Res Rep AfDB, Stat Dept AfDB and MINAGRI Rwanda
09 :30 - 10:00	<i>Family picture and Coffee-break</i>	
10:00 - 10:30	Introduction, meeting objectives and expected outcomes, and presentation of the agenda	AfDB
Chair: Manager, Statistical Capacity Building Division, AfDB SESSION 1: Introduction to the Global Strategy and Action Plan for Africa		
10:30- 11:00	Introduction to the Global Strategy	FAO/AfDB
11:00- 11:30	Governance Mechanism of the Action Plan for Africa	AfDB
11:30- 12:00	Discussions	
12:00-13:30	<i>Lunch break</i>	
13:30-14:00	Technical Assistance component of the Action Plan for Africa	AfDB
14:00-14:30	Training component of the Action Plan for Africa	ECA
14:30-15:00	Research component of the Global Strategy	FAO
15:00-15:30	Discussions	
15:30-16:00	<i>Coffee-break</i>	
16:00-16:30	National Agricultural Statistical Systems	Ghana/Rwanda/Uganda
16:30 -16:45	Discussions	
16:45-17:15	Background to the Country Assessment process	AfDB/FAO
17:15 -17:30	Discussions	

Wednesday, 20 June 2012		
Chair: FAO SESSION 2: Presentation and discussions the use of the Country Assessment questionnaire		
08:30 - 09:10	Module 1 of the questionnaire of the Country Assessment	AfDB
09:10 - 09:30	Discussions	
09:30 - 10:10	Module 2 of the questionnaire of the Country Assessment	AfDB
10:10 - 10:30	Discussions	
10:30 - 11:00	<i>Coffee-break</i>	
11:00 - 11:40	Module 3 of the questionnaire of the Country Assessment	AfDB
11:40 - 12:00	Discussions	
12:00 - 12:20	Minimum core data sets	AfDB
12:20 - 12:30	Discussions	
12:30 - 14:00	<i>Lunch break</i>	
Chair: ECA SESSION 3: Demonstration and discussions the use of the Data Input Application		
14:00 - 15:00	Demonstration of the Data Input application	AfDB
1500 - 15:30	Discussions	
15:30 - 15:45	<i>Coffee-break</i>	
15:45 - 17:00	Practice on the use of the Data Input application	AfDB
Thursday, 21 June 2012		
Chair: ECA SESSION 3: Demonstration and discussions the use of the Data Input Application (Cn't) and working group sessions		
08:30 - 10:00	Practice on the use of the Data Input application	AfDB
10:00 - 10:15	<i>Coffee-break</i>	
10:15 - 11:30	Operational arrangements for compiling country assessment data at country levels (on data collection and on the use of the Web-based application)	Two working groups
11:30 - 12:00	Presentation/discussions on findings and possible proposals for improvement of operational arrangements	Working group rapporteurs
12:00 - 14:00	<i>Lunch break</i>	
14:00 - 16:00	Drafting of main conclusions of the workshop and way forward	AfDB/NISR
16:00 - 16:15	<i>Coffee-break</i>	
16:15 - 16:30	Discussions and adoption of the main conclusions of the workshop and way forward	
16:30-17:00	Concluding remarks	NISR

Annex 3 – Major resolutions

The Major Resolutions of the Agricultural Statistics Country Assessment workshop in Kigali, Rwanda from the 19th- 21st June 2012

Introduction

Participants from 36 African countries and development partners including AU, AfDB, ECA, FAO, DfID, USDA/NASS (see list of participants in annex) represented during this workshop on the Country Assessment of agricultural statistics as part of the Action Plan for Africa within the Global Strategy for Improving Statistics for Food Security, Sustainable Agriculture, and Rural Development, have extensively deliberated on the overall contents of the strategy, its governance mechanism, technical components and implementation arrangement. Having done so, detailed discussions have been held on the Country Assessment framework and the role of countries in ensuring the successful implementation of the action plan.

The objective of the workshop was to appraise the participants on the action plan for Africa and train them on the effective use of the developed country assessment instruments in compiling information related to agriculture statistical capacity needs.

The participants read and appreciated the Action Plan for Africa and its components as a major initiative for improving agricultural statistics in Africa, and urged partners to support follow-up activities.

As a result, the following resolution with regards to the instruments used for the country assessment, online application and the operational arrangements have been endorsed.

1) Instruments of the Country Assessment

- i. Questionnaire content
 - i. To implement the suggested corrections of editing of the both versions (English and French) and reflect it on the online application.
 - ii. Should be identical to the online application. For example the columns on Module 1 section 2.1 in reference to institutions responsible.
- ii. Online Application

The participants acknowledged and recognized the online application as option 1 for administering the country assessment framework. Having done so, the participants have forwarded the following improvements on the online application:

 - i. The system should have flexible in-built skip patterns that enable respondents to navigate between various tabs and questions depending on the availability or non-availability of data.
 - ii. In addition to the minimum core data sets, the design of the online application should be flexible to capture other important products not listed in the system.

- iii. Read only access to all other key users (such as line ministries and sub-sectors) besides the country coordinator and data entrant.
- iv. The Definitions, concepts and classifications used should be in-line with international standards. For example the case of livestock nomenclature.
- v. To provide the possibility of uploading offline excel version data to the online application.
- vi. To provide online help or user guide (in both languages) to help ease the data entry. The guide should also clarify the validation rules for respondents.
- vii. To provide the respective national coordinators with the access to database after the submission/validation of the assessment questionnaires.

2) Operational Arrangement

- i. Ensure provision of resources to enable countries implement the action plan. To this end the ICP initiative may be used as a reference.
- ii. In order to ensure sustained ownership of the Action Plan for Africa and its implementation, countries are responsible for the establishment of the governance structure at national level.
- iii. The participants agreed on the way forward and the time line of the next steps of activities which is annexed with this resolution.

Annex 4 – Road Map

Activity	Time frame	Responsible
Ongoing work: Tabulation/Analysis plans/guidelines (Development/building indicators of data quality and statistical development)	End Sep 2012	Regional Implementing Agencies (AfDB, ECA, FAO)
Fine-tuning the web-based application	Mid-July 2012	AfDB
Providing access to countries in countries	End July 2012	AfDB
Establishing governance structures in countries, viz: National Agricultural Statistics Committee, National Technical Working Group and designating a National Strategy Coordinator	End of August 2012	Countries
Brief members of the governing structures	End of Aug 2012	Countries
Establishment of a web-based Forum of Agricultural Statisticians in Africa (FASIA)	Mid-Aug 2012	AfDB
National Workshops on the Action Plan for Africa	Oct 2012	Countries in partnership with regional implementing agencies
Data collection/compilation and submission: (a) Using the web-based application, (b) Using soft copies	Mid-Sept 2012	Countries
Data checking and validation (at regional level)	End of Oct 2012	AfDB
Data processing – Tabulation, indicator calculation	End of Nov 2012	AfDB
Data analysis	End Dec 2012	AfDB
Preliminary results: discussions and validation	End of Jan 2013	AfDB/Partners
Results report: indicators, country profiles, ranking and grouping	End of Feb 2013	AfDB
In-depth assessment and preparation of <u>national action plans</u> for the 1 st 12 countries	March-July 2013	Countries and Implementing agencies
