Public Foundation CAMP

Alatoo

- The overall goal is to contribute to the improvement of people's livelihoods in the mountain villages of Kyrgyzstan by encouraging a more sustainable use of natural resources.
- The CAMP Alatoo pursues a trans-disciplinary and multi-stakeholder approach based on local, regional and international partnerships and experiences.
- The CAMP Alatoo develops, adapts and implements innovative, simple and effective technologies in cooperation with villagers, local institutions, partner organizations and experts.

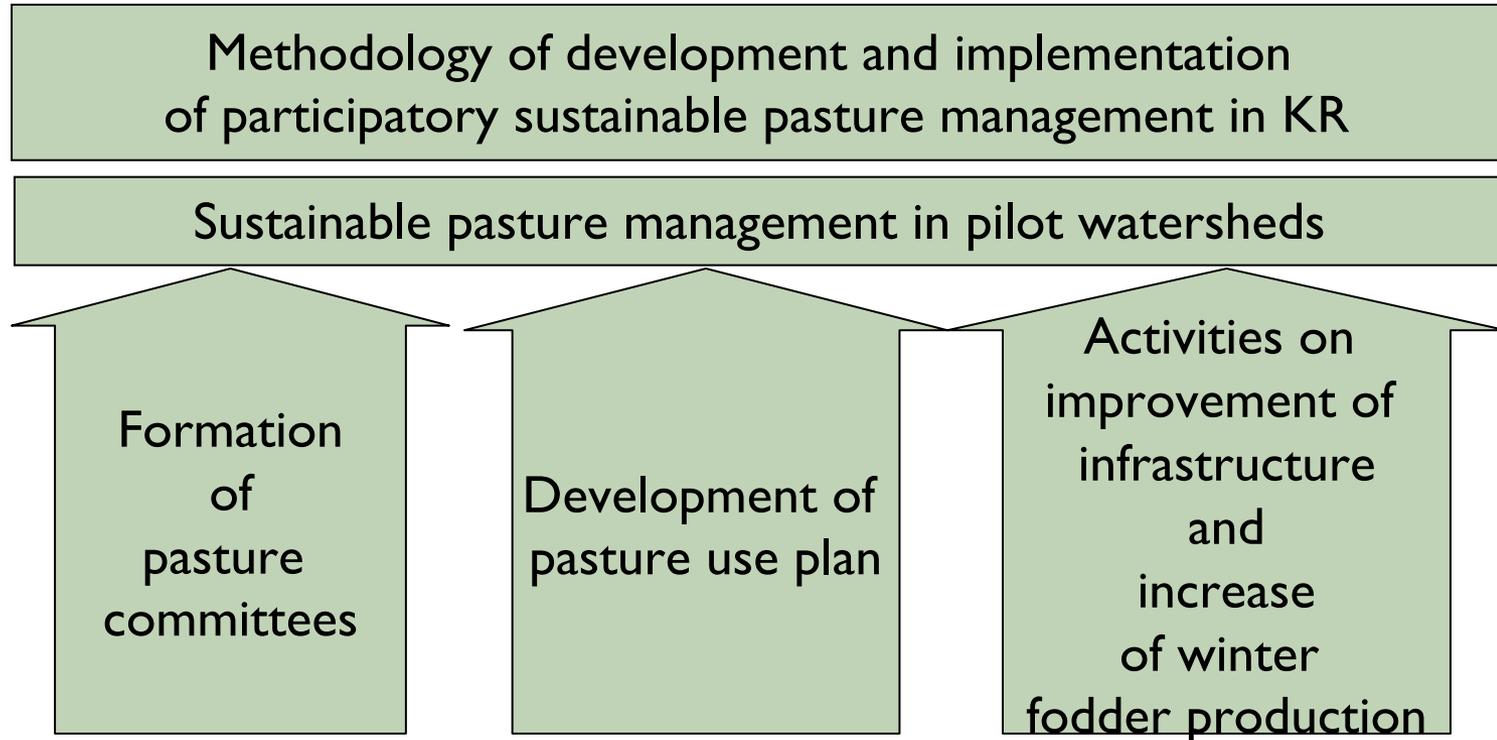

Overview of activities in 2010

- Pasture management (GTZ CCD, German Embassy)
- Energy efficiency (BMU, Lichtenstein)
- Integrated Local Risk Management (SDC, GTZ)
- Conflict management for natural resources (OSCE)

**Sustainable
pasture
management in
basins of the
rivers Jergetal
and Onarcha**

Logical structure

- **Grazie!**
- **Rakhmat!**
- **Thank you!**
