# National Policy for the Sustainable Management of Mountains in Chile and Action Plan to 2030

- Vision: "By 2030 mountains are recognized as an element of national identity, integrated with the aspirations of social, economic and environmental well-being of the population."
- General Objective: To recognize and value mountains as part of national identity, promoting their sustainable use and promoting the social, economic and environmental well-being of the population.
  1. Strengthen the knowledge and intercultural assessment of the mountains, including that of indigenous peoples in Chile
  2. Raise awareness of the international, national, regional and local importance of mountains.
  3. Promote the protection of mountains, taking the necessary measures to maintain their environmental services
  4. Encourage sustainable economic development in the mountains.
  5. Educate and promote responsible and inclusive access to the enjoyment of mountains
