RESTORING IN THE HEIGHTS – ALLINYACHIY

1/3

Southern Andes:

- Rural development
- Environment
- Biodiversity

Location:

- Tolconi Peasant Community (4780msnm),
- Chachas district, Castilla province, Arequipa region.

Beneficiaries:

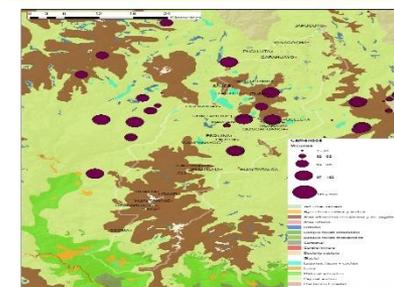

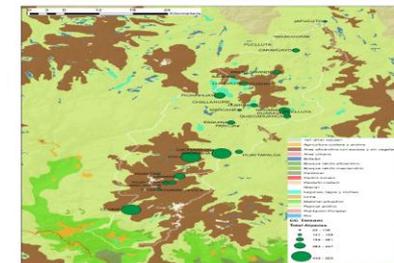

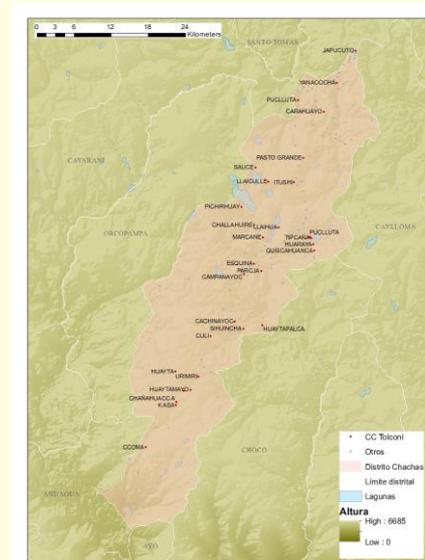

Direct:

180 families
12k alpacas
3k vicunas

Indirect:

750 familias,
30-40k alpacas (Chachas district: 31,828; and
Orcopampa district)
Vicunas?

- The first stage of this project will last for three years (2017, 2018, 2019).

Rural Development and Community Strengthen Program

- Community Capacity Building, public health and environmental issues - "KUSI CAUSAY"
- Technical advisors in environment and breeding - "YACHAYNIYUQ"
- Strengthening of producers association - "KAWSAQI"

Social enterprise of transformation of raw materials and generation of added value to the products

- Transformation and sale of alpaca products of natural colors "HATOS" - Natural Balance
- Sustainable management of Vicuña

RESTORING IN THE HEIGHTS – ALLINYACHIY

3/3

Social, economic and environmental strengthening from the formation of human capital and articulated support projects
SUMAQ CAUSAY – ALLIN CAUSAY

Traditional breeding of alpacas, shearing, collection, classification and transformation of fiber to threads with a fair trade approach, animal welfare and environmental sustainability.

TYPE OF ALPACA	PRICE PER POUND (us\$)	CATEGORIES
WHITE	+/- 3,0	YES
COLOR	+/- 1,5	NO

Special value to colored fibers as a way to promote the conservation of biodiversity and natural colors in alpacas.

The vicuña business plan will focus on the biological integrity of the species, monitoring and capture plan “chaccu” (shearing), and its environment.

**INTERCULTURAL DIALOGUE,
MANAGEMENT OF NATURAL
RESOURCES AND TRADITIONAL
KNOWLEDGE BASED ON LOCAL
AND ANCESTRAL ACTIVITIES**
