IPROMO

*Environmental and economic issues
to enhance mountain sustainability*
Ormea – Pieve Tesino 5-19 July 2017

Education

- Bachelor and Master degree in Environment protection and Agroecology – Kyrgyz National Agrarian University
- PhD in Biology (Ecological monitoring and pasture management) – KNAU/NAS/Humboldt University
- Professional development courses – Agrarian Academy, Moscow; Humboldt university, Berlin

Employment and main activities

- Association Professor;
- Lead specialist of department for distance education;
- Specialist of science/education departments;
- Laboratory assistant

- Head of Marketing department;
- Head of projects;
- Project manager

- National Programme Policy Officer on climate change adaptation and environment protection;
- Expert on climate change adaptation

Other interests (volunteer work, hobbies etc.)

Additional work experience

Expert, consultant, coordinator, head of projects, technical editor (In the framework of different projects in Kyrgyzstan of UNDP, FAO, GIZ, Helvetas, Aga Khan/MSDSP KG, TEMPUS EPASAT, AG FUKO/Ministry of Agricultural (Niedersachsen, Germany) etc.)

Hobbies

SUPPORT TO NATIONAL PRODUCTIVE SAFETY NETS AND LONGER-TERM COMMUNITY RESILIENCE

PROJECT OBJECTIVES

WFP's in the KR Support to National Productive Safety Nets and Longer-term Community Resilience project aims to provide technical support to the Government of the Kyrgyz Republic to strengthen its capacity to improve food security and nutrition and support long-term community resilience for the poorest and most vulnerable, focusing on rural development, social protection, disaster risk mitigation and climate change adaptation.

KEY FOCUS AREAS

Rural development – WFP supports the creation or rehabilitation of key rural infrastructure and community prioritized assets including irrigation networks, bridges and internal roads, which contribute to fostering local socioeconomic development through enhanced agricultural production, strengthened community capacities and accelerated economic empowerment of the most vulnerable, particularly women.

Disaster Risks Mitigation and Climate Change Adaptation – WFP provides support and advice to develop strategies aimed at building resilience of the most vulnerable populations to natural shocks and climate change.

Enhancement of Social Protection – WFP provides policy advice and technical support to develop national strategies on social protection and strengthen the existing schemes of social support. Productive safety net schemes focus on the mobilization of vulnerable communities to create a sustainable and resilient asset base through income-generating activities such as fishery, vegetable gardening, agro-forestry, fodder production and infrastructure development.

Trainings - sewing courses, bakery and culinary courses, welding and electrician training, furniture production training and other skills training.
