Other (please, specify),

Please describe and provide references where applicable:
Fighting to protect and preserve our mountain is almost a daily struggle. We fight the mindless projects of the government, indiscriminate tourism and resort development, uncontrolled real estate growth. The campaign is reported regularly in the national and local dailies and media. They are too numerous to cite.

Page 13: Challenges

Q13

What are the main challenges for Major Groups Organizations related to increasing efforts towards the implementation of the 2030 Agenda for mountains?

Mountain regions/people do not have a voice in national policy making/decision-taking

,

Funding for mountain-specific policies and programmes are difficult to obtain

Page 14: Support from the Mountain Partnership Secretariat

Please indicate up to 5 major outcomes of your work since January 2018 related to raising awareness of sustainable mountain development and mountain ecosystem conservation in relevant international conferences and summits and on including mountain-related language in outcome documents, resolutions and strategies

Awareness raised in international conferences and summits

,

Mountain-related language included in outcome documents, resolutions and strategies

,

Other (please, specify),

Please describe and provide references where applicable:

As of Jan 2018 I increased my activities to raising awareness for SMD and protection of mountain ecosystems in Iran and globally. As you are aware mountains and particularly protection of mountain ecosystems been a lifelong activity for me during the past 55 years as an entomologist/ ecotoxicologist. Protection of mountain products in Evin Darake mountain route toward the PalangChal mountain refuge, please see my Instagram: biomahda and my facebook page. In both mountain days 2018 and 2019 I did lot of activities, messages, awareness etc., please see many videos of my activities for the MD 2019 on youtube. Considering different types of threats on the big Summit of Iran Damavand I increase my local activities here in my residence city: Pardis toward the mountain Damavand, will try to send some photos to Antonella. https://www.youtube.com/results?search_query=ahmad+mahdavi+mountain+partnership
[https://www.cbd.int/api/v2013/documents/FED4C78D-44A8-7109-A700-34F63193622E/attachments/Uot\(2\).pdf](https://www.cbd.int/api/v2013/documents/FED4C78D-44A8-7109-A700-34F63193622E/attachments/Uot(2).pdf)

Page 13: Challenges

Q13

What are the main challenges for Major Groups Organizations related to increasing efforts towards the implementation of the 2030 Agenda for mountains?

Mountain regions/people do not have a voice in national policy making/decision-taking

,

The rights of mountain communities for access to local resources are not ensured in national policies and laws

,

Funding for mountain-specific policies and programmes are difficult to obtain

,

Other (please specify):

For me, the problem is funding support, thanks to god that protection of mountains for me as an entomologist ecotoxicologist been a basic personal habit since many years ago otherwise I would not be able to help without a supporting budget. As it was discussed in earlier surveys one big problem for some major groups is lack of familiarity with basic knowledge of biodiversity, products, etc. in mountains Indeed in a mountainous country like Iran and nearby countries, the right of many people living in mountains is not protected by local policymakers and we need to increase their attention. One other problem is the lack of special support for mountain farming in mountain regions as I see.

Page 14: Support from the Mountain Partnership Secretariat

Q14

What could the MPS do to support Major Groups Organizations in increasing their efforts for implementing the FFA and the 2030 Agenda for mountains? Please rank the following actions from 1 to 4, where 1 is the highest priority and 4 the lowest. Please note that each column can be selected only once.

Facilitate the dialogue with government MP national focal points **1**

Facilitate the participation of the MP focal point in regional networks on sustainable mountain development **2**

Develop briefs on sustainable mountain development policies **3**

Other (please, specify in the box below) **4**

Other (please specify)

Financial support for related projects, it is true that we are all at first mountain climbers? scientists? having high interests in mountain issues, have close relations with many other UN conventions particularly those under the FAO itself, CBD, Bird conservation, Soil partnership, etc. but getting some financial support from the MP will encourage the activities, spending more time, etc. Supporting for participation and talk in related conferences in Rome, etc.

Please indicate up to 5 major outcomes of your work since January 2018 related to raising awareness of sustainable mountain development and mountain ecosystem conservation in relevant international conferences and summits and on including mountain-related language in outcome documents, resolutions and strategies

Awareness raised in international conferences and summits

,

Scientific papers on mountain issues published in national or international journals

,

Please describe and provide references where applicable:

TMI as part of a collaborative program with IKI Germany and IUCN was able to promote awareness of mountain ecosystem and societies particularly in the context of climate change and promoting the need to foster ecosystem based adaptation approaches in mountain regions. These are main outcomes in International conferences and summits 1. UNFCCC SBSTA50 in June 2019, including the EbA Knowledge Day and the EbA Community of Practice workshop. 2. UNSG Climate Summit in New York (23 Sep 2019) 3. Multiple events at UNFCCC COP25 in Madrid, Spain (2-13 Dec 2019). These include the high-level panel "Driving adaptation in mountains through community and ecosystem-based innovations", two side events hosted by the Colombian government in its Pavilion under the topic "Soluciones basadas en la Naturaleza (SbN) en ecosistemas estratégicos: una oportunidad de alcanzar metas comunes en América Latina", and an exhibit about mountain EbA. 4. Participated in the IUCN webinar "NbS in Latin America" in the COP25 series organized by Youth4Nature (Nov. 28th). Examples on the ground (including the Mt. EbA experience in Peru. Experiences in Peru were also shared in the Third Latin American Congress of Protected Areas in Peru. 5. The adoption of the CBD voluntary guidelines (Nov 2018) for the design and effective implementation of ecosystem-based approaches to climate change adaptation and disaster risk reduction presented an opportunity to engage with CBD focal points on mainstreaming EbA. Publications: In a joint effort with the IKI-funded "Ecosystem-based approaches to climate change adaptation" TMI Peru published one case study in the publication Evidence on ecosystem-based adaptation in Latin America and the Caribbean • The team in Peru in a joint effort with the IKI-funded "Ecosystem-based approaches to climate change adaptation" http://mountain.pe/recursos/attachments/article/171/Abe_-_Casos_de_Estudio_ESPvs.pdf

Page 13: Challenges

Q13

What are the main challenges for Major Groups Organizations related to increasing efforts towards the implementation of the 2030 Agenda for mountains?

Mountain regions/people do not have a voice in national policy making/decision-taking

,

The rights of mountain communities for access to local resources are not ensured in national policies and laws

,

Funding for mountain-specific policies and programmes are difficult to obtain

Page 14: Support from the Mountain Partnership Secretariat

Q14

What could the MPS do to support Major Groups Organizations in increasing their efforts for implementing the FFA and the 2030 Agenda for mountains? Please rank the following actions from 1 to 4, where 1 is the highest priority and 4 the lowest. Please note that each column can be selected only once.

Facilitate the dialogue with government MP national focal points

4

Facilitate the participation of the MP focal point in regional networks on sustainable mountain development

3

Develop briefs on sustainable mountain development policies

2

Other (please, specify in the box below)

1

Other (please specify)

Focus on the networking dimension and across the multiple levels of stakeholders embedded in the MP membership. This could involve for instance cataloguing in simple ways the 3 primary areas of action for each MP member; build databases of persons and institutions associated with the MP: continue offering short courses on technical aspects, open training course on networking on issues that are priorities for each mountain region and provide digital facilities for direct cross-communication bt members. Emphasis on MP facilitating resources and platform to communicate across mountains could also help respond to the need for more direct involvement of mountain communities in the definition of mountain agendas. MP focal points could be potentially activated to have more effective roles through having these kinds of digital platforms to add value to interactions at the national and regional levels.

Please describe and provide references where applicable:

1. Extensive Capacity Building on Disaster Risk Management in the Himalayan region of India.
2. Micro-mapping of Critical Facilities, Infrastructure and Resources in the remote, vulnerable areas of Himachal Pradesh.
3. Supporting the Departments in developing better guiding documents related to climate change adaptation.
4. Publishing IEC materials in local language on issues related to disaster preparedness, mitigation and response.
5. Training of government departments, NGOs, professionals and volunteers on smart collection of disaggregated data.

Page 13: Challenges

Q13

What are the main challenges for Major Groups Organizations related to increasing efforts towards the implementation of the 2030 Agenda for mountains?

Mountain regions/people do not have a voice in national policy making/decision-taking

,

Funding for mountain-specific policies and programmes are difficult to obtain

Page 14: Support from the Mountain Partnership Secretariat

Q14

What could the MPS do to support Major Groups Organizations in increasing their efforts for implementing the FFA and the 2030 Agenda for mountains? Please rank the following actions from 1 to 4, where 1 is the highest priority and 4 the lowest. Please note that each column can be selected only once.

Facilitate the dialogue with government MP national focal points	2
Facilitate the participation of the MP focal point in regional networks on sustainable mountain development	1
Develop briefs on sustainable mountain development policies	3

Page 13: Challenges

Q13

What are the main challenges for Major Groups Organizations related to increasing efforts towards the implementation of the 2030 Agenda for mountains?

Other (please specify):

The need to increase the educational efforts for sustainable mountain development. IPROMO summer school by FAO - Mountain Partnership is a great example and try to fill this gap but I think that also in the different countries more efforts should be dedicated to improve the education activities for/about mountains.

Q12

Indique hasta 5 resultados principales de su trabajo desde enero del 2018 relacionados con la sensibilización sobre el desarrollo sostenible de las montañas y la conservación de los ecosistemas de montaña en las conferencias y cumbres internacionales pertinentes y sobre la inclusión de lenguaje relacionado con las montañas en los documentos finales, las resoluciones y las estrategias.

Sensibilización aumentada en conferencias y cumbres internacionales;

‘

Artículos científicos sobre temas de montaña publicados en revistas nacionales o internacionales;

Page 13: Desafíos

Q13

¿Cuáles son los principales desafíos para las Organizaciones Principales relacionados con el aumento de los esfuerzos hacia la implementación de la Agenda 2030 para las montañas?

Las regiones de montaña/las personas no tienen voz en la formulación de políticas/toma de decisiones nacionales.

‘

Los derechos de las comunidades de las montañas de acceder a los recursos locales no están garantizados en las políticas y leyes nacionales.

‘

Es difícil obtener financiación para políticas y programas específicos para las montañas.

Page 14: El apoyo de la Secretaría de la Alianza para las Montañas

Q14

¿Qué podría hacer el MPS para ayudar a las Organizaciones Principales a incrementar sus esfuerzos para implementar la FFA y la Agenda 2030 para las montañas? Clasifique las siguientes acciones de 1 a 4, donde 1 es la prioridad más alta y 4 la más baja. Tenga en cuenta que cada columna solo se puede seleccionar una vez sola.

Facilitar la participación del punto focal del MP en las redes regionales sobre desarrollo sostenible de las montañas. **3**

Elaborar informes/Notas sobre políticas de desarrollo sostenible de las montañas. **4**
