

**Mountain related events at UNFCCC COP 27**  
**7-18 November 2022 | Sharm el-Sheikh Egypt**

Date	Event	Organization	Time/Room
<b>Side events</b>			
Wednesday, 09 Nov 2022	<b>Women led Cooperative climate Finance lending to build resilient Community- A case study of Nepal</b> The Theme of this side event is climate finance and effort of women led cooperatives in building climate resilience at the grass-root level	- Digo Bikas Institute (DBI) - Rural Reconstruction Nepal (RRN)	16:45—18:15 Khufu
Friday, 11 Nov 2022	<b>IPCC Cross-Chapter 5: Mountains – sharing knowledge to promote adaptation initiatives in mountains</b> The latest IPCC report included a cross-chapter specific on mountain issues. Among other things, it discusses the importance of adaptation measures for fighting climate change in mountains. This side-event will look at these findings and discuss how to promote adaptation initiatives in mountains.	- Albertine Rift Conservation Society (ARCOS Network) - Asociación Civil Oikos (OIKOS) - International Centre for Environment Education and Community Development (ICENECDEV)	11:30—13:00 Hatshepsut
Tuesday, 15 Nov 2022	<b>Enhancing climate resilience in mountain ecosystems – lessons from the Lesotho Water Towers</b> Showcase a risk-informed approach to integrated catchment management (ICM) that advances resilience by appraising climate risks and fostering nature-based solutions to address climate change vulnerabilities and impacts in Lesotho. ReNOKA (we are a river) movement protects critical water source areas.	- Lesotho - Austria - Instituto Andino de Montaña (IDM)	18:30—20:00 Thutmose
Thursday, 17 Nov 2022	<b>Food security, indigenous economy and community vigilance against climate change</b> Strengthen food security and the indigenous economy, control and surveillance is key to exercising governance over territories pressured by deforestation, so as to contribute to the NDC with clear adaptation and mitigation measures.	- Federación Nativa del Río Madre de Dios y Afluentes (FENAMAD) - Asociación Regional de Pueblos Indígenas de la Selva Central (ARPI-SC)	11:30—13:00 Khufu
Thursday, 17 Nov 2022	<b>Bringing mountains to the forefront by leveraging the International Year of Mountains 2022</b> Organized in the framework of the Mountain Partnership, this side-event will discuss how to leverage the International Year of Sustainable Mountain Development 2022 to bring mountains to the forefront of international processes and, in particular, to the plenary discussion of future COPs.	- Kyrgyzstan - Andorra - Karnali Integrated Rural Development and Research Centre (KIRDARC) - Nepal	18:30—20:00 Hatshepsut

<b>Exhibits</b>			
7-9 November	Mountains are disproportionately threatened by climate change compared to lowlands, due to elevation dependent warming. Leveraging the International Year of Mountains 2022, we will promote the global mountain agenda including the Hindu Kush Himalaya region - the Pulse of the Planet.	-International Centre for Integrated Mountain Development (ICIMOD) - The Energy and Resources Institute (TERI)	Booth #6
10-12 November	Mountains are disproportionately threatened by climate change compared to lowlands, due to amplified rates of warming at higher elevations. This exhibit will showcase how local mountain communities are working to address livelihood, climate, and sustainability challenges.	- Instituto Andino de Montaña (IDM) - Asociación Civil Oikos (OIKOS)	Booth #6
<b>Pavilions</b>			
6-18 November	<a href="#">Cryosphere Pavilion</a>	International Cryosphere Climate Initiative	
8 November	<b>Mountains: Glaciers and Snow: Centuries of Impacts on Water Resources – I</b> 13:00 Cascading Impacts: How can we adapt and reduce risk in the mountains and downstream? 14:30 Mountains connect: Partnerships across mountain communities 17:30 #MovingMountains: Visual Stories from the Hindu Kush Himalaya	Cryosphere Pavilion – organized by ICIMOD / Adaptation at Altitude programme	
9 November	<b>Mountains: Glaciers and Snow: Centuries of Impacts on Water Resources – II</b> 11:30 #MovingMountains Together: Youth, climate action and the sustainable mountain development 13:00 How to fun adaptation effort to address cascading climate risks in the HKH and other mountain regions? 14:30 Lessons from applying nature-based solutions across the world in support of the Hindu Kush Himalaya 18:00 Leading Mountain Sustainability Through Innovation 19:30 CPR on a Glacier in the Swedish Mountains	Cryosphere Pavilion – organized by ICIMOD / FAO / Bolin Centre for Climate Research	
9 November	<b>Leading mountain sustainability through innovation</b> This event will be focused on how to build synergies among different stakeholders to co-develop and implement solutions for tackling challenges related to climate change in mountain regions, and the adoption of innovation, new technologies and change management in cryosphere and mountain regions.	Cryosphere Pavilion - Eric Chavez Betancourt, Asociación Oikos, Mountain Partnership member	

14 November	<p><b>State of the Cryosphere in Peru: Progress and challenges for adaptation to climate change</b></p> <p>The event will present the advances in the comprehensive management of climate change in Peru, with an emphasis on adaptation, and the situational status of the cryosphere in the Peruvian tropical glaciers. In this context, we will share the latest results of scientific research carried out by the Peruvian National Institute for Research on Glaciers and Mountain Ecosystems as well as other international experts.</p>	Cryosphere Pavilion – co-organized by Peruvian National Institute of Research on Glaciers and Mountain Ecosystems / Peruvian Ministry of Environment	10.00 – 11.30
16 November	<p><b>Cross-cutting / State of Cryosphere</b></p> <p>14:30 Mitigating Avalanche Risk in High Mountain Asia: Community-led and Data-driven approaches 16:00 A Message from Cryosphere 2022</p>	Cryosphere Pavilion – organized by Aga Khan Agency for Habitat / Icelandic Met office, WMO, Icelandic Ministry of the Environment, Energy and Climate and participants from Cryosphere 2022	
17 November	<p><b>Mountains: Glaciers and Snow: Centuries of Impacts on Water Resources – III</b></p> <p>10:00 Africa's Glaciers and Nile's Origins: the Rwenzori 11:30 Glaciers of Colombia and Ecuador 13:00 Mountain Countries in the COP27 Negotiations 16:00 Kilimanjaro and Mt. Kenya</p>	Cryosphere Pavilion	
7-18 November	<a href="#">Food and Agriculture Pavilion</a>	FAO, The Rockefeller Foundation, CGIAR	Blue Zone
8-18 November	<a href="#">Water Pavilion</a>	Egyptian Ministry of Water Resources and Irrigation	
12 November	<b>Building resilience from the bottom up: Science-based tools for adaptation</b>	Water Pavilion	
14 November	<b>Roadmap for 2025: International Year of Glaciers</b>	Tajikistan Pavilion	
10 November	<p><b>From the Andes to the Alps: Monitoring mountain ecosystems as a contribution to the NDC</b></p> <p>Disseminate the tools for monitoring mountain ecosystems: glaciers and peatlands in the NDC implementation, based on the collaboration between the Ministry of Ecological Transition of Italy and the Ministry of the Environment of Peru.</p>	Italian Pavilion	10:30 – 12:30
