

Session 10: Country-level group discussions on pilot implementation

- Four groups – Thailand, Viet Nam, Pakistan and regional
- Objective – come up with 5 sites for project piloting, including:
 - Location and scale (size of the mangrove area)
 - Parties to be involved – financier, TAB, local community, government agency, third-party auditor
 - Activities to be financed – mangrove protection and/or restoration?
 - Implementation modalities – e.g. organising households into groups?
 - Initial steps for project development – e.g. proposal preparation, contacting the government agency?
- Type up the findings and report back
