

Fisheries Administration,

Cambodia would like to agree and support COFI SCAQ 2019 Recommendations on the followings:

- the millennium aquaculture conference (later this year in Shanghai) and above all to ensure sufficient 'stakeholder' involvement, e.g. in finalizing the 9 thematic papers by providing an open consultation
- setting up a new coherent aquaculture program “Global Integrated Sustainable Aquaculture Program GISAP”
- the rollout of the next phase of the “Action Plan on Antimicrobial Resistance”
- the report “State of the World’s Aquatic Genetic Resources for Food and Agriculture” and the preparation of a specific “Plan of Action for Aquatic Genetic Resources”.

We look forward to the COFI 34.

Best regards,

For Dr. Hav Viseth,
Deputy Director General,
Fisheries Administration, Cambodia
