

34th Session of the FAO Committee on Fisheries

Comments from Mexico

Item 13.1

MANDATE OF THE INTERNATIONAL PLATFORM FOR FOOD AND DIGITAL AGRICULTURE

- Mexico considers a great effort the development of this system on the basis that it will serve to promote dialogue on digitalization, as well as to facilitate the exchange of knowledge on best practices, actions and regulatory frameworks of the food, agriculture, livestock, fisheries and aquaculture sectors.
- Mexico is in consultations to determine if at any time it expresses interest in having a representative of our country to be part of the Intergovernmental Representatives Group, in order to be implicated during the decision-making of that International Platform.
