PARTNERSHIP

The [International Network on Soil Fertility and Fertilizers](#) is pleased to invite you to the webinar “Soil health as a prerequisite for crop production: The relevance of organic fertilizers” that will take place online on Tuesday 30 January 2024, 13:00 – 15:00 (Central European Time).

This is the first in a series of webinars that will be organized by INSOILFER to enhance capacities on the sustainable management of soil fertility and fertilizers. The first webinar will

focus on the relevance of soil properties and organic amendments to soil health and crop production.

Objectives of the webinar:

- Support capacity development on sustainable soil management practices focused on boosting soil properties.
- Discuss the gaps and challenges in the use of organic fertilizers.
- Exchange knowledge and technology around the use of organic fertilizers.
- Support food security and sustainable agro-food systems
- Link the webinar conclusions with INSOILFER working groups activities

Agenda

Moderator: Mr Yuxin Tong, INSOILFER Co-Coordinator, GSP Secretariat, FAO

13:00-13:10	Opening remarks <i>GSP Secretariat, FAO</i>
13:10-13:20	Introduction to the webinar series: setting the scene <i>Dr Georges Martial Ndzana, INSOILFER Chair</i>
13:20-13:30	The International Network on Soil Fertility and Fertilizers-INSOILFER: Goals and Potentialities <i>Ms Vinisa Saynes Santillán, GSP Secretariat, FAO</i>
13:30-14:00	“Soil health as a prerequisite for crop production: The relevance of organic fertilizers” <i>Dr Adele Muscolo, University of Reggio Calabria, Italy</i>
14:00-14:25	Q & A session and open discussion
14:25-14:30	Conclusions and closure of the webinar
