

## World Soil Day in Cuba

Since 2007, the Cuban Society of Soil Science (CSSS) celebrates the World Soil Day (WSD) every 5<sup>th</sup> December. This year, as a result of the successful launching of the [Global Soil Partnership for Central America, Mexico and the Caribbean](#) in Havana at the beginning of last October, the WSD will be celebrated with activities in every of the 14 provinces of the country.

The key activity will be held in Havana and will include the launching of a new book about Soil Classifications written by Dr. Alberto Hernandez; the grant of the CSSS *Germán Planas Award in Soil Science* and the Conference 'Global Soil Partnership and the importance of Soil Sustainable Management for Food Security' organized by Dr Olegario Muñoz, CSSS president.
