
WORKSHOP ON PROMOTING INVESTMENT IN AGRICULTURAL WATER MANAGEMENT IN NIGERIA AND TANZANIA – MAKING STRONG CONNECTION WITH COUNTRY-LED PROCESSES –

29-30 May 2014

Double View Hotel | Dar es Salaam, Tanzania

Introduction

Facilitated by the partnership for agricultural water for Africa (AgWA), this event will bring together representatives from ministries related to water resources, agriculture and energy in Tanzania and Nigeria and other experts to share insights and discuss on agricultural water management (AWM) in both countries. In particular, current and planned trends of investment in AWM will be reviewed and recommendations on how to promote more and better investment in AWM will be made.

This workshop is funded by the project *GCP/RAF/472/IFA Building a Mature Partnership for Scaling up Agricultural Water Management in Africa*

Objectives of the workshop

The objectives of this workshop are to contribute to improved investment planning on Agriculture Water Management (AWM) in Nigeria and Tanzania in the context of the CAADP process and to explore investment possibilities in AWM in both countries. Specifically the workshop will:

1. Review current and expected investment trends in water management for agriculture and energy in Nigeria and Tanzania.
2. Discuss on lessons learnt from the past and investment priorities for the future.
3. Present results of the application of the Diagnostic Tools for Investment (DTI) in water for agriculture and energy in Nigeria and Tanzania.
4. Train participants in the use of the Diagnostics Tools for Investment (DTI) in water for Agriculture and Energy.
5. Provide recommendations and discuss on the scaling up of AWM investments in Nigeria and Tanzania, based on the results of DTI application in the countries.
6. Provide recommendations and discuss on how to strengthen the AWM component in countries' strategic planning within the CAADP framework.
