# Codex Alimentarius and the International Dairy Federation

## **IMPLEMENTING CODEX STANDARDS CASE STUDIES ON THE USE AND IMPACT GENERAL STANDARD FOR THE USE OF DAIRY TERMS**

### **SUMMARY**

As part of the celebrations for the 120<sup>th</sup> anniversary of the International Dairy Federation (IDF) and the 60<sup>th</sup> anniversary of the Codex Alimentarius Commission (CAC), the IDF Standing Committee for Standards of Identity and Labelling (SCSIL) and the Codex Secretariat are organizing a webinar on “Implementing Codex Standards: case studies on the General Standard for the Use of Dairy Terms (GSUDT)”. IDF launched a survey in 2022 among its members on how the GSUDT has been implemented at national and/or regional levels. This webinar will present the work IDF has done to capture these data and present three case studies from countries that implemented the GSUDT through different approaches and means of adaptation to their legislative frameworks.
