

# TFAMR

# Task Force on Antimicrobial Resistance

## Webinar series

### Monitoring and Surveillance of AMR

Online |

**19 January 2021, 10:00-12:00 CET**

**20 January 2021, 20:00-22:00 CET**

*The objective of this webinar, which will be replicated on 19 and 20 January 2021, is to provide an update on work taking place in Codex on the Guidelines on Integrated Monitoring and Surveillance of Foodborne Antimicrobial Resistance.*

*With expert presentations from countries leading the work, participants will gain an insight on specific aspects of the text, noting changes introduced and the progress made as well as identifying outstanding issues that require further work. The webinar will also explore other critical issues that the audience may identify in order to aid the discussion and finalization of the Guidelines.*

*The webinars will feature interactive surveys and live question and answer sessions with opportunities to learn and contribute.*

**Virtual event details:** Interpretation in English, French on 19/1 and English, Spanish on 20/1

## Programme

<b>Part 1</b>	Welcome	Codex Secretariat
	Update on the work of the electronic working group	Rosa Peran
<b>Part 2</b>	Outstanding issues	Co-chairs
	Exchange of views about key issues identified by the eWG. Special attention will be given to the following topics in Section 1, 2, 4, 8 and 9: <ul style="list-style-type: none"><li>• Antimicrobial use: proposed definition in Section 1, inclusion in the scope of the guidelines</li><li>• Flexibility for the implementation of monitoring and/or surveillance programme(s) according to national needs</li><li>• Principles 2, 9 and 10 and proposed alternatives</li><li>• Section 8 and 9: What level of detail is needed in this section and its subsections? When should examples be either retained, added, or deleted from the text?</li></ul>	
<b>Part 3</b>	Wrap up and next steps	Codex Secretariat, Rosa Peran
