

## Next steps - Ethiopia

As a result of the selection process for this workshop/training, you, as country participants, represent the food security and nutrition clusters and have committed yourselves to take forward actions resulting from this event.

*What actions would you recommend to address the obstacles identified on the first day?  
Identify at least one action per type of obstacle that you would commit to take forward.*

Obstacle/barrier for integrating nutrition & food security	Action(s) recommended	Person / Organization responsible
Issues related to Data / Monitoring	Review the existing FS and nutrition data collection tools and develop centralized FS and nutrition information system	NNTC/CSA
Lack of knowledge / expertise / capacities	<ul style="list-style-type: none"> <li>✓ Create awareness and capacity building at middle and higher level experts, including policy makers level</li> <li>✓ Create awareness among the public about FS and nutrition importance and integration</li> </ul>	GO, NGO, UN agencies.
Lack of policy commitment and gaps/weaknesses in policy and programming process	Review FS and nutrition integration policy environment and reinforce implementation	NNTC
Donors request/attitude and lack of funds	Advocate funding for NNP	NNTC
Silos approach and weak coordination	Foster dialogue and advocacy	NNTC

*Which platforms could you use as an entry point to implement these actions?*

**NNTC and inter-cluster coordination mechanism**

*What are the opportunities in existing / up-coming programmes that you could use to integrate food security and nutrition?*

**NNP**

*How can the ToT participants support you in fulfilling these commitments?*

**Work jointly in awareness raising and policy discussions/sensitization, cascading the training at country level**

*What kind of other support are you likely to need? **Commitment from all stakeholders***
