

Integrating Nutrition and Food Security programming for emergency response and resilience-building

Next steps - Kenya

As a result of the selection process for this workshop/training, you, as country participants, represent the food security and nutrition clusters and have committed yourselves to take forward actions resulting from this event.

*What actions would you recommend to address the obstacles identified on the first day?
Identify at least one action per type of obstacle that you would commit to take forward.*

Obstacle/barrier for integrating nutrition & food security	Action(s) recommended	Person / Organization responsible
Issues related to Data / Monitoring	-Harmonization of the already existing tools to ensure a nationwide coverage for Nutrition and Food Security assessments	Government
Lack of knowledge / expertise / capacities	-Develop a contextualized action plan (the ToTs) -Capacity building on integrating Nutrition and Food Security at the national, organization and county levels -Integrate Nutrition and Food Security in the capacity building framework that is currently in development	-FAO, NTF, ToTs, Government
Lack of policy commitment and gaps/weaknesses in policy and programming process	-Advocate for implementation of the NFSP framework	- SUN networks
Donors request/attitude and lack of funds	-Advocate for a change from emergency to resilience and long term programming -Encourage donors to provide joint/multi-donor funding for integrated programming -Improve programme information sharing among different actors in the nutrition and food security components	- SUN networks
Silos approach and weak coordination	-Joint programming and monitoring and evaluation	-All actors

Integrating Nutrition and Food Security programming for emergency response and resilience-building

Which platforms could you use as an entry point to implement these actions?

-SUN networks, NTF, KFSSG, ICCs, NDMA, MOA

What are the opportunities in existing / up-coming programmes that you could use to integrate food security and nutrition?

-Devolution process

-The ASAL donor working group working with NDMA to develop a joint programme (with 6 projects)

-UNICEF country programme starting in 2014

How can the ToT participants support you in fulfilling these commitments?

-Support in capacity building in the respective clusters and working groups

-Advocate for greater recognition of the need to integrate

What kind of other support are you likely to need?

-Funding
