NACSAAN OBJECTIVES

- Help inform and educate agricultural and forestry leaders on the potential impacts of climate change;
- Equip producers with the tools and knowledge they need to make informed decisions and manage new risks;
- Mobilize producers to advocate for needed changes in land-use practices, research, education, and policy; and
- Inspire producers to become leaders in the broader discussion of climate change, including adaptation and mitigation.
North America Climate Smart Agriculture Alliance (NACSA): A platform for knowledge sharing and the application of climate science to agriculture

CSA Pillars:
- Adaptation & Resiliency
  - Crop & Livestock Hardiness
  - Erratic Weather
  - Mitigation of Environmental Impacts
  - Water Use Efficiency
  - Pest & Invasive Species Management
- Productivity (sustainable intensification)
- GHG Reduction
  - Carbon Sequestration
  - Clean Fuels
  - Methane Capture

Partner Contributions:
- Knowledge Sharing
- Communication, Outreach, and Education
- Place-Based Planning
- Data Collection & Aggregation
- Decision Support Tools
- Innovation Forum
- Priority Needs Assessment
- Inter-Disciplinary Stakeholder Collaboration
