

## WORKSHOP / TRAINING

# REGIONAL WORKSHOP: WEST AFRICA

10-14 Nov. 2003

DAKAR, SENEGAL

- Mauritania
- Mali
- Cameroon
- Nigeria.

### GOALS

This initiative aimed to provide participants with training on land cover mapping, LCCS and other geo-information technologies, which can be used on both national and regional projects. The workshop was also used to initiate regional collaboration and GLCN projects.

The workshop was held in Dakar, in combination with the Africa GIS'03 Conference (4-7 November 2003). It was organized by FAO with the financial and technical support of the United Nations Environment Programme (UNEP) and the Government of Italy.

### COUNTRIES

The workshop was intended for technical individuals from national institutes involved in land cover mapping. 25 participants from 13 countries attended the workshop:

- Niger
- Burkina Faso
- Ivory Coast
- Senegal
- Gambia
- Cape Verde
- Benin
- Togo
- Ghana
