

1 BILLION PEOPLE LIVE IN CHRONIC HUNGER AND I'M MAD AS HELL.

SIGN THE PETITION TO END HUNGER WWW.1BILLIONHUNGRY.ORG

Lucrecia

I'm mad as well because of what seems like a passive genocide. How come there is enough global food production to feed three times the whole world and we still reach this point?

Juan José

Congratulations my friends! This campaign is awesome! We need a more humane world every day... With 1 billion hungry people, how can I not be mad as hell! This is why we need to undoubtedly & unconditionally join the petition.

Andrew

Tell the world that if people die of hunger is NOT because there isn't enough food available. Hunger is not the fault of fate... Evil policies cause hunger.

Walter

It is unacceptable that "developed" countries invest more in weapons than in food for the poor, and that nations with a great economic power, like in Africa, let their children starve to death.

Ana Maria

This campaign will remain in my heart and memory, seeing everybody united against this need, which is a need we all have and go through at some point in our lives I believe... but God helped us to move on and through this knowledge it is nice to help many people who are still suffering from this painful situation. Continue your good work...

Domenico

Many thanks to all of you who have committed themselves, and still do, to this humanitarian cause. United in this goal we ask the staff of 1billionhungry project to leave the petition open-ended until hunger will be effectively eliminated.

Enzo

Christmas is approaching with everybody staffing themselves in the name of eternal love while out there 1 billion people starve to death. It's high time we cut it out!
