FOREST LEGALITY INITIATIVE

February 25, 2016

OUR OBJECTIVE

- Reduce deforestation and forest degradation and improve forest management and governance through supporting legal trade in wood and combatting illegal logging.

FOUR AREAS OF WORK

1. Private sector engagement & multi-stakeholder dialogue
2. Tools and resources for supporting sourcing legal timber
3. Mobilizing emerging technologies for timber tracking and wood identification
4. Building capacity for independent monitoring to combat illegal logging

MOBILIZING EMERGING TECHNOLOGIES

1. Analyze status quo and development needs for timber tracking and wood id technologies
2. Identify and partner with laboratories in US and other regions
3. Analyze public investment and intellectual property issues related to new technologies and innovation
4. Assess scientific capacity for wood ID and support capacity building in target countries
