

# **GOVERNMENT POLICY AND BUDGET ALLOCATION TO TACKLE DEFORESTATION AND FOREST FIRE**

**NUR MASRIPATIN**

**DIRECTOR GENERAL OF CLIMATE CHANGE  
MINISTRY OF ENVIRONMENT AND FORESTRY  
APFW, STREAM 2, 24 FEBRUARY 2016**

# INTRODUCTION

- ❑ Understanding underlying drivers of deforestation and forest fire is critical in finding solutions of the problems,
- ❑ Issues surrounding deforestation and forest fire in Indonesia include : law enforcement and compliance, livelihood, capacity (institution and human resources), coordination and synergy in the efforts towards sustainable management of natural resources.
- ❑ Positive drivers are hardly considered in finding solution of deforestation and forest fire.

# POLICY AND MEASURES

## (Forest and climate change, Forest and national development)

- ◆ Pre 2020 commitment on CC mitigation (26 % - 41 % emission reduction)
- ◆ Post 2020 commitment/INDC ( 26 % unconditional - 41 % conditional emission reduction)
- ◆ REDD+ as part of conditional emission reduction efforts)
- ◆ NAWACITA target (include 35 000 M Watt new power plant development; infrastructure development, land allocation for local community, etc)

# POLICY AND MEASURES

- ◆ One map policy
- ◆ Moratorium of new license on peat land
- ◆ Peat land restoration and sustainable peat ecosystem management Action Plan (BRG, MoEF, MoA, ATR, PUPR, Ministry of Interior and local government, other relevant Ministries)
- ◆ Forest Fire Prevention Action Plan (cross Ministerial action plans - with specific arrangement on budget allocation; Presidential Regulation in preparation)

# Budget Allocation or resource mobilization (issues)

- ◆ Forest – climate change – development is cross-sectoral issues, so does the issues and challenges surrounding them.
- ◆ Deforestation and forest fires are forestry sector challenges with multi- dimensions (local, national, international).
- ◆ Under the proposed Action Plan on Forest Fire Prevention, there will be specific budget allocation for all relevant Ministries and Institutions → but the issues in tackling deforestation and forest fire is not only budget allocation but also effective resource mobilization for the efforts.

# THANKYOU
