

Qualification for projecting of land consolidation in the Czech Republic

Ing. Jana Pivcová, Czech Republic
Ministry of Agriculture, Central Land Office
pivcova@mze.cz

Who can work on land consolidation projects in the Czech Republic?

- They are the physical persons, with the qualification for projecting
- This qualification prove by „Special authorization given by the law“ (license)
- The conditions for getting this license are enumerated in the law No. 139/2002Coll. (on land consolidation and land offices)
- The „special authorization“ is given by Central Land Office, based on written demand

Who can get the „special authorization“ (license) ?

The authorization is given to person fulfilling the following:

- Qualification for legal acts
- Moral integrity
- University graduate or high school education terminated with exam (geodesy, agriculture, forestry, environmental protection)
- 3 years experience (university graduate)
- 6 years experience (high school education)
- Exam of special aptitudes

The exam of „special authorization“

The authorization is granted to the day of passing the exam. Prior of exam the suppliant submit the proposal of design of land consolidation which elaborated or participated substantially; the Central Land Office elaborates the references of it.

The subjects of exam are following:

- Special knowledge of projecting of land consolidation and related domains, above all geodesy, water and forest husbandry, municipality planning, transport constructions, soil protection and landscape preservation
- The knowledge of valid laws in the subjects and related domains

Only two repetitions are possible

Who organize and ensure the exam?

- The exam and its organization is ensured by the Central land Office
- The members of exams committee are named by the director of Central land Office.
- The members of exams committee are:
 - the employees of land offices
 - specialist of schools
 - experienced designers
 - the members of the Czech - Moravian Chamber of land consolidation

What the authorized person can do?

- Draws up the design of land consolidation
- Elaborates the references and viewpoints in the domain of land consolidation

The database of authorized persons is kept in the Central Land Office. To 30.4.2006 there were 765 persons in the database
