The Land Bank of Galicia (SITEGAL) is a web tool in which you can consult and request at any time the plots that are incorporated to the Land Bank of Galicia.

The Land Bank of Galicia is a tool created by the Ministry of Rural Affairs and integrated into the Galician Agency of Rural Development (agader) with the double objective of preventing their abandonment and make them available to all those who need land for agriculture, forest, livestock, environment and patrimonial conservation uses or other uses of social interest. In the following link you can check all the information about the Land Bank.

In the following line you can check the available periods for the submission of the plot incorporation and lease formalities:

Application procedure periods:

A period for initial applications is now open until 15/02/2018.

Incorporation of plots by some people as well as agreed leases can be processed all over the year.

If you want to know more about how to use the SITEGAL, click here.
