

Food and Agriculture Organization
of the United Nations

Toward an integrated work plan SNE Group

Integrated work plan

- Value chain and Youth employment
 - Combat desertification (land tenure, rangelands, forests, oases, etc.)
 - Capacity building (Institutions, POs)
 - Agricultural Census
 - Transboundary animal and plant pests and diseases
 - Reducing Food losses and waste
 - Policy advise
-

How can we better integrate/ align FAO's work at country level

- Better communication at all levels (country, SRO, RIC, SPL)
- Use CPFs as base for planning and reporting
- Allocate more time/resources for Technical/Operation Officers to support countries

Do we identify potential areas for synergies?

- Breaking silos between CPF, RIs, SPs
 - Subregional coordination mechanisms
 - Focus on multidisciplinary areas of work where we can have impacts
-

How can we speed up the delivery?

- Flexibility of the systems at different stage (planning, reporting and monitoring)
 - Simplify reporting systems and processes
 - Strengthen capacities of countries for resource mobilization, implementation and reporting
-

How can we work efficiently?

- More focus on priorities (CPFes, RPF)
 - Use regular programme funds as seed money
 - Allow more time for Technical officers for backstopping
-
