Soil and Water:
a source of life

5 December, 2023

Book contest

FAO's GSP and the IUSS (International Union of Soil Sciences) invited soil scientists and designers to **team up** and **submit** their freestyle book proposal for children based on the motto

Soil and water, a source of life .

The book is intended for children between **6 and 11 years old**.

Book contest

The IUSS, some members of the ITPS (Intergovernmental Technical Panel on Soils) and FAO's GSP secretariat constituted the selection Committee and assessed all book submissions based on the following criteria:

- Adherence to the year's theme
- Creativity and originality
- Quality of information content
- Technical and scientific competence
- Artistic/visual impact of the book.
