

Important information note from Host Country:

If you need an entry visa to Argentina, it is highly recommended that you immediately contact the nearest consulate of the Republic of Argentina in order to submit your visa request along with all necessary documentation.

It is advisable that you submit such request as soon as possible, as a substantive increase of the workload of all consulates is expected in relation with a heightened number of entry requests in relation with the Bicentennial celebration on 25 May 2010 (commemorating the 200th anniversary of our first national Government).
