FIGIS-FIRMS Workshop The Fishery Ontology Service (FOS)

version 1-0

last updated : 24 July, 2002

Management Summary

Author	Frehiwot Fisseha
Version	1-0
Project	FIGIS
Created	27 June 2002
Powerpoint presentation	20 slides – File: FIGIS/2002/16b_FOS Presentation.ppt; FIGIS/2002/16b_FOS overview.ppt

Abstract

This presentation describes what an ontology is and explains the motivation of Agricultural Ontology Service (AOS) and the Fishery Ontology Service (FOS). The presentation provides some examples of classical terminology systems in the fishery domain and explains their basic differences. It indicates the advantage of harmonising terminology and describes the advantage derived from integrating vocabularies from different sources. It also explains the methodology for integrating the vocabularies.
