

<b>FIRMS Steering Committee Meeting</b>
<b>Sixth Session</b>
<b>Hobart, Australia, 24 – 26 February 2010</b>
<b>ACTIVITIES CARRIED OUT BY <u>CCAMLR</u> DURING THE INTERSESSIONAL PERIOD</b>
<b>Author: CCAMLR Secretariat</b>

### **1. Developments on inventories of marine resources, and of fisheries**

Inventories of fisheries in the CCAMLR Convention Area have been submitted to FIRMS based on CCAMLR's Schedule of Conservation Measures in force.

### **2. Reporting on status/trends of marine resources, and of fisheries**

Fishery fact sheets have been prepared for fisheries targeting toothfish *Dissostichus eleginoides* and *Dissostichus mawsoni* (9 sheets), icefish *Champscephalus gunnari* (2 sheets) and krill *Euphausia superba* (1 sheet) in the CCAMLR Convention Area. Seven toothfish fishery fact sheets were updated in 2009 and uploaded to the FIRMS website. In addition, three FIRMS resource fact sheets have been outlined (krill, icefish and toothfish), and are being drafted as time allows.

CCAMLR has continued to work with other Partners to develop standard categories of management measures for use in the Fishery Module. This development will be reported to FSC6, and background information is available from the FIRMS wiki.

### **3. Development/review of standards**

No further developments in 2008/09.

### **4. Development of Applications**

Limited involvement in 2008/09.

**5. Development of case studies/prototypes**

No further developments in 2008/09.

**6. Training or skills development**

No further developments in 2008/09.

**7. Promotional activities**

No further developments in 2008/09.

**8. Planned activities during the coming intercessional period**

Annual reporting to FIRMS, and provision of comments and feedback to FIRMS as required.
