COORDINATING WORKING PARTY ON FISHERY STATISTICS

Twenty-third Session

Hobart, Tasmania. 22-26 February 2010

CWP QUESTIONNAIRE

Author: ICES

1. Whether does your organization maintain IUU list? If yes, please describe the criteria to determine whether a certain vessels/activities to be included in the list.

ICES has no management obligations and does not have IUU lists

2. Does your organization estimate the amount of catch taken by IUU activities? If so, please describe briefly the estimation procedures.

No standard approach. Fish stock assessment WGs deals with this estimation on a case by case basis. Information is given in the Fish stock assessment reports and results incorporated in the advisory report. There is no systematic review and the inclusion is a bit at random

3. Please list the data that the organization collected from member states (including cooperating non-members), their format (e.g. questionnaires) and a set of classifications/codes used.

See list from Eurostat

4. Please provide the methodological description of national statistics, if available.

See Eurostat description

5. Please indicate the sections of the CWP Handbook that you considered outdated as well as those issues missing.

1. Possible missing chapters:
 - a. VMS
 - b. Economic statistics (Costs and earnings)
 - c. Social statistics (demography, regions etc). There is a chapter on Fishers but the data demands are ever increasing
 - d. Database technology for data storage
2. J: No comments, we believe that there are significant updates to be done
3. M: Would the Nantes scheme for fleet statistics be appropriate
4. O: Logbooks to be updated with whatever changes are required in the context of electronic logbook
5. U: expand with references to appropriate URL's

In general the literature lists need to be revisited
