

Standard form to collect data on existing types of MPAs, including fishery reserves/fisheries restricted areas in the Mediterranean Sea

Country:
Compiled by:

Name of the MPA	Type(1)	Int. Cat (2)	Int. Status (3)	National Status/Legislation	Date of creation/	Manag. Plan (4)

- (1) **Type** : Please indicate if the area concerns coastal – **C** and/or marine - **M** and/or wetland habitats - **W**. For marine habitats specify if : Interior marine waters - **IW**, Territorial sea - **TS**, or Off shore - **OS**
- (2) **Int.Cat** : Please indicate the international categories (IUCN) of the area:
Strictly natural reserve/Scientific reserve - **1**National Park – **2** Nature Monument – **3** Natural managed reserve – **4** Protected landscape/seascape – **5** Reserve of managed resources (e.g. fishery reserve) – **6**
- (3) **Int. Status** : Please indicate the international status of the area : Biosphere reserve - **MAB**; Ramsar Site - **Ramsar**; World heritage Site - **WHS**; European diploma - **ED**; Natura 2000 – **N2000**; Emerald network - **Emerald**; specially protected area of Mediterranean importance - **SPAMI**
- (4) Stick if a management Plan is available

Name of the MPA	Surface			Total Area (km ²)	Coastline length (km)	Longitude	Latitude
	Land Area (km ²)	Sea Area (km ²)	Wetland Area (km ²)				

Insert a Map (if possible):

Name of the MPA :

Nature of the information available (5)	Use of resources and economic activities (5)	Problems & Threats (5)
Geology	Tourism	Overfishing & resource exploitation
Geomorphology	Aquaculture	Urbanisation
Physico-chemical parameters	Fishery	Discharges & sewages
Biology Flora Fauna other	Shipping	Mining & extraction of materials
	Salt works	Water pollution
	other	Erosion
		Silting up
		Aliens & Invasive species
		other

- (5) Stick and complete if necessary
