(Kenya- KMFRI)ASFA Trust Fund Proposal
Elimination of Gaps

Background and Justification

During the ASFA advisory board meeting 2004 in Mar del Plata, Argentina, KMFRI proposed to input retrospective journals in our KMFRI holdings, which belongs to other ASFA partner's monitoring lists. The Board advised that the titles list be revised and the ASFA partners responsible (CSA, DFO, MBL) for the titles be contacted for approval this was done.

The aim of this proposal was to eliminate gaps and complete coverage of serial titles in ASFA database. Some ASFA partners begun to monitor their journals when they joined ASFA, so there are earlier issues that are not covered. The proposal intends to prepare 4000 complete bibliographic records with indices (Title, Authors, Abstract, subject descriptors etc) using ASFA Input Methodologies and WWW-isis-ASFA software for Data entry.
