3. Input statistics

Input for 2004 was 1455 records prepared and entered into ASFA on behalf of the United States. . For 2005 to date, input prepared and entered is 1124.

4. ASFA Entitlements

ASFA CSA Internet Database

5. Usefulness of ASFA products.

ASFA continues to be one of the most useful bibliographic tools used by NOAA researchers. ASFA is available to all NOAA staff via the Internet. The capability of connecting to full text documents from the ASFA database is being fully utilized by staff. Training sessions on searching the database are on a continuing basis ensuring the maximum usage for researchers. There has once again been an increase in the number of ASFA searches by NOAA staff. There were 67,281 searches on ASFA by NOAA staff this year, compared with 65,756 searches last year.
