United Nations

COMMISSION ON
GENETIC RESOURCES
FOR FOOD AND
AGRICULTURE

BACKGROUND

- 10 years of MYPOW
- Strategic Plan for the Commission on Genetic Resources for Food and Agriculture
 - two documents updated at different sessions and therefore not always synchronized with each other.
 - strategic goals and objectives contained in the Strategic Plan 2014-2023 were of operative, rather than strategic nature.

Organization of the
United Nations**

**COMMISSION ON
GENETIC RESOURCES
FOR FOOD AND
AGRICULTURE**

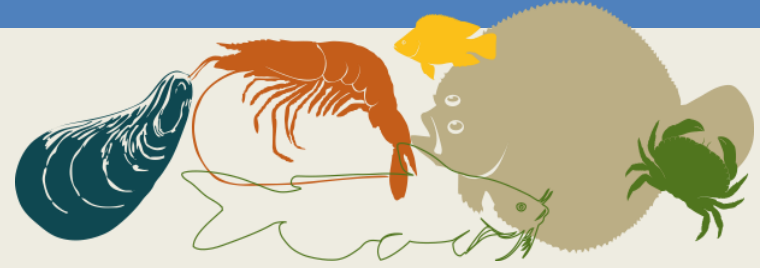

Strategic Plan 2018-2027 aims to

- combine the previous MYPOW table and the planning of Commission sessions into one planning tool;
- align the Commission's work, including its strategic goals and objectives and the monitoring of the status of genetic resources, with the Sustainable Development Goals (SDGs);
- update the major outputs and milestones foreseen for the next five regular sessions of the Commission.
 - The proposed Strategic Plan would continue to contain the Commission's 'Mission' and 'Vision'
 - 'Strategic Goals' would contain four goals
 - former section on 'Strategic Goals and Objectives' would be revised and become 'Operative Principles'.

AGRICULTURE

Strategic Goals and targets

- cross-sectoral
- aligned with the Sustainable Development Goals (SDGs), and the Strategic Plan for Biodiversity 2011-2020 and its Aichi Biodiversity Targets
- build on the Strategic Priority Areas, long-term goals and targets of the existing global plans of action on plant, animal and forest genetic resources, and the established indicators and monitoring procedures

GUIDANCE SOUGHT

The Working Group is invited to

- review the progress made by the Commission over the last decade, and
- to review and revise, as appropriate, the draft Strategic Plan for the Commission on Genetic Resources for Food and Agriculture (2018-2027), as given in *Appendix I*.
