### Summary

- **Q (t)**: Quota in tons
- **V (USD 1,000)**: Value in thousand dollars

The table presents the aquaculture production of various marine molluscs by species and country or area from 2009 to 2018. The data includes the production volume in tons (Q) and the value in thousand dollars (V) for each year. The production is classified by species, and the countries or areas are listed in the rows. The data shows a trend of increasing production and value over the years.
