

# *Synthesis of Country Progress Reports: Poplars and Willows:*

**Presentation to International Poplar Commission  
23<sup>rd</sup> Session, Beijing, China**

by

Jim Carle, Alberto Del Lungo, Lei Chen (陈蕾),

30 October, 2008

# The Assessment

- **New Questionnaire on Poplars and Willows**
- **Assessment of:**
  - **Area by Poplars and Willows Categories**
  - **Main Cultivars planted**
  - **Area Trends**
  - **Ownership**
  - **Forest Products**

**Data collected on Growth Rates, MAI & Annual Removal but not reported in this presentation**

**The new mass of data collected still requires further analysis and verification with countries**

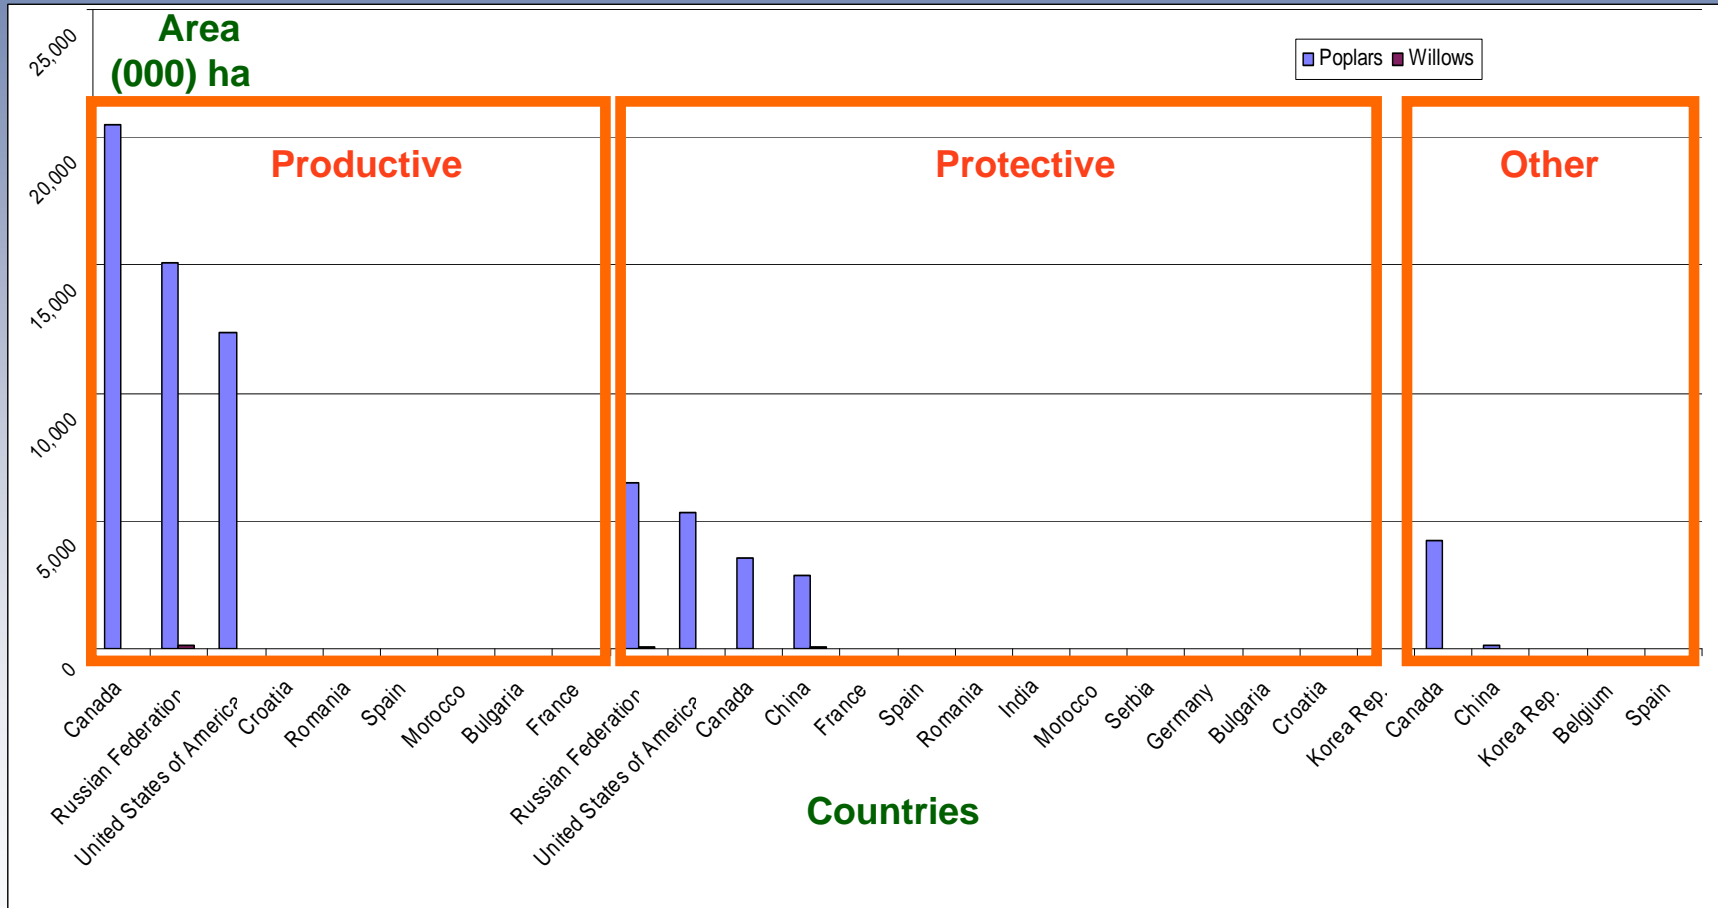

# Reported Poplar & Willow Resources

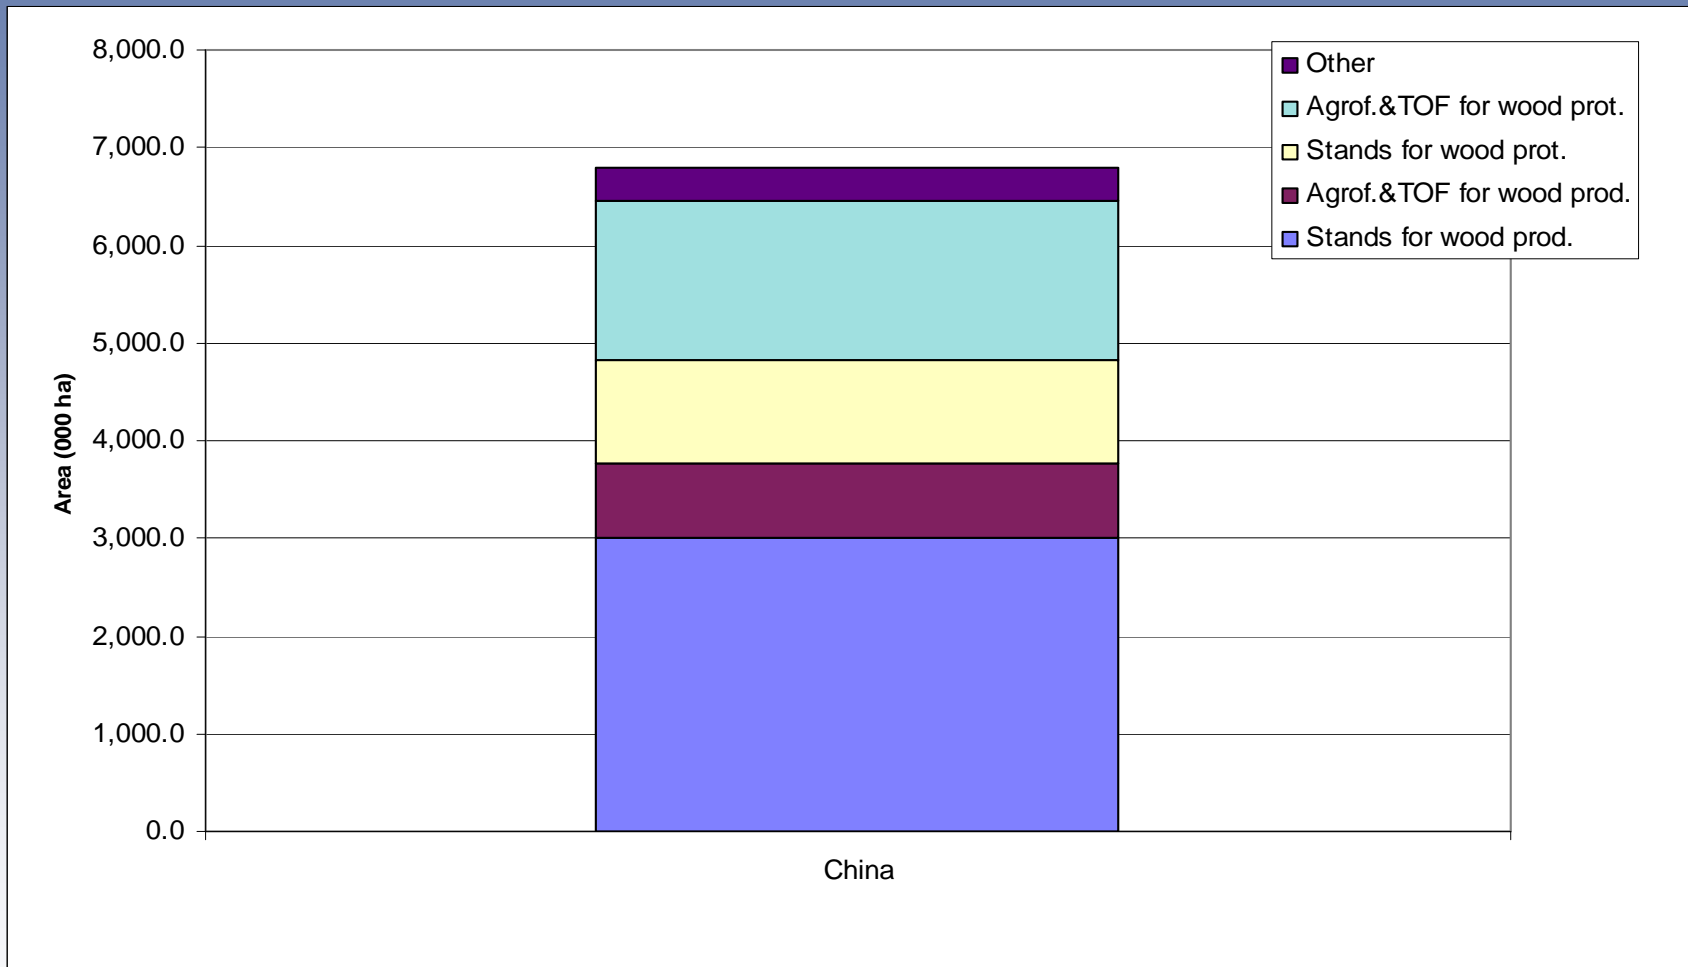

Forests & Trees	Poplar	Willow	Total
Natural Forest	70.578	416	70.993
Planted Forest	5.254	138	5.392
Agroforestry/TOFs	2.626	8	2.636
<b>Total</b>	<b>78.458</b>	<b>562</b>	<b>79.020</b>

# Natural Poplar & Willow Areas by Purpose

# Planted Poplar, Area by Purpose: China

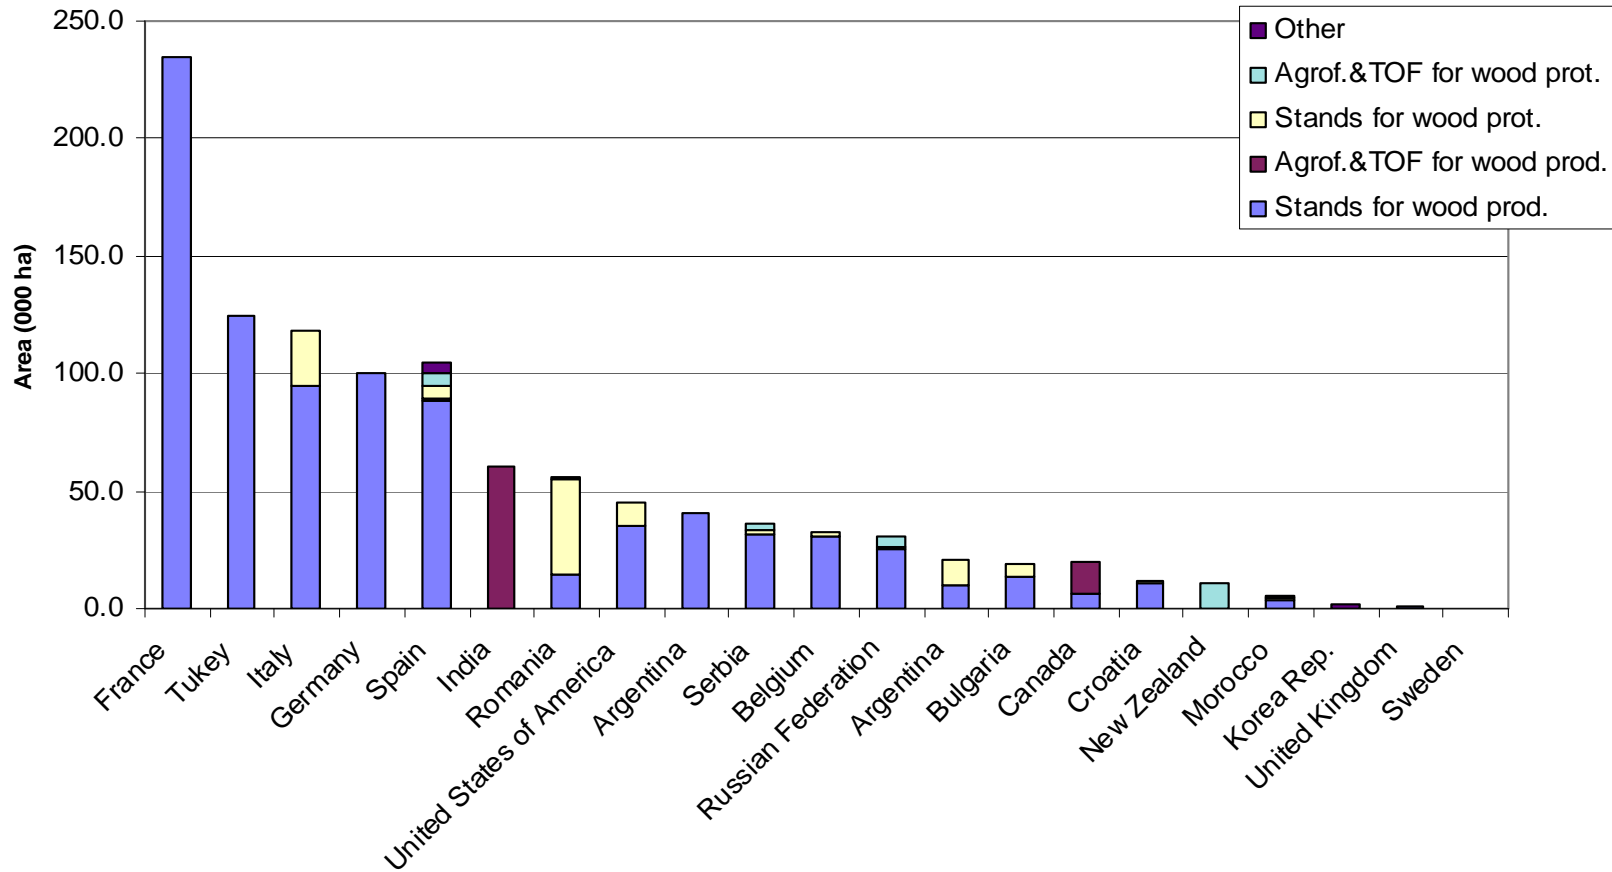

**Note: China has almost 30 x more planted Poplar area than France (2<sup>nd</sup> largest)**

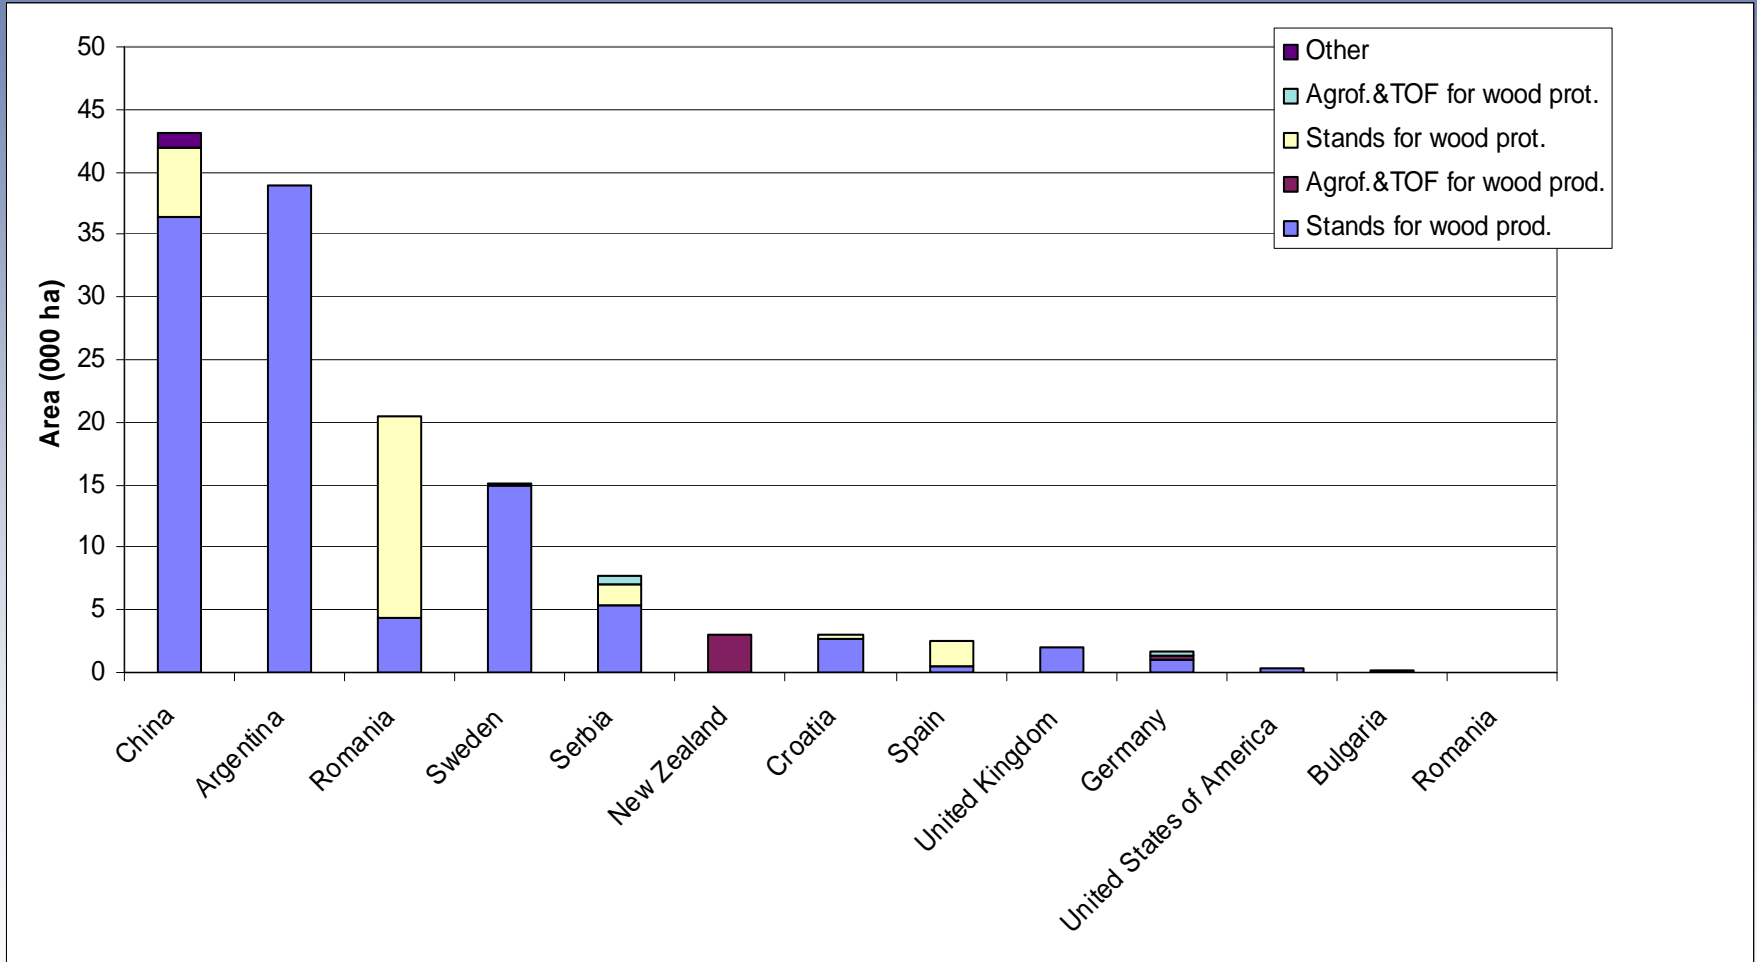

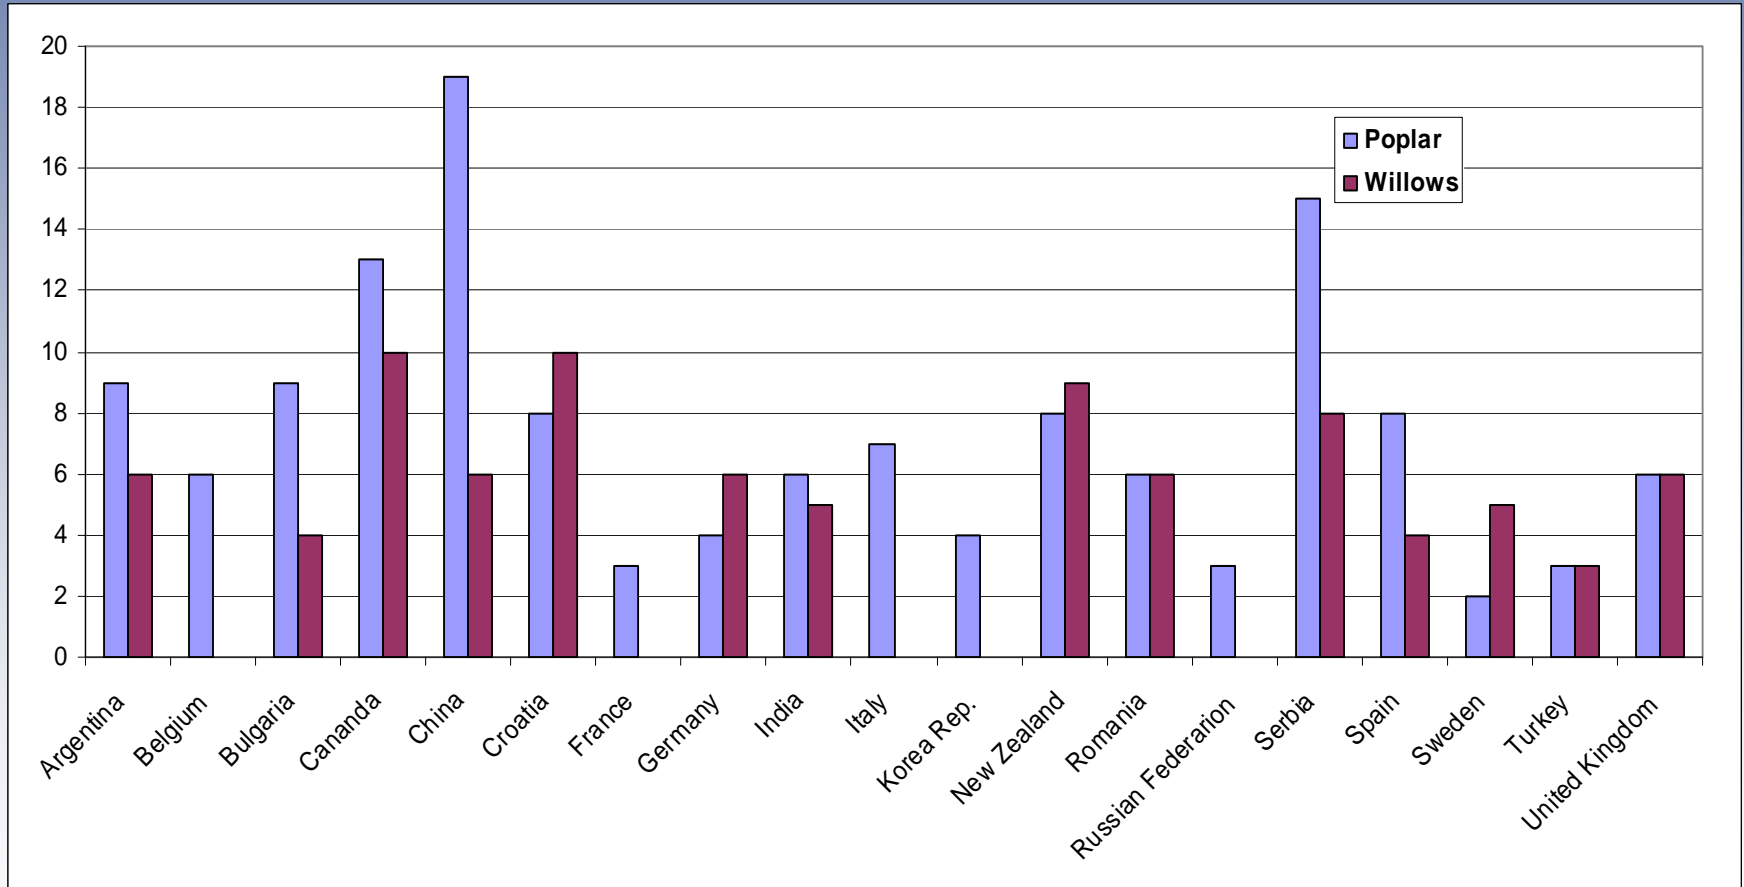

# Planted Poplar Area by Purpose: Other Countries

# Planted Willow Area by Purpose

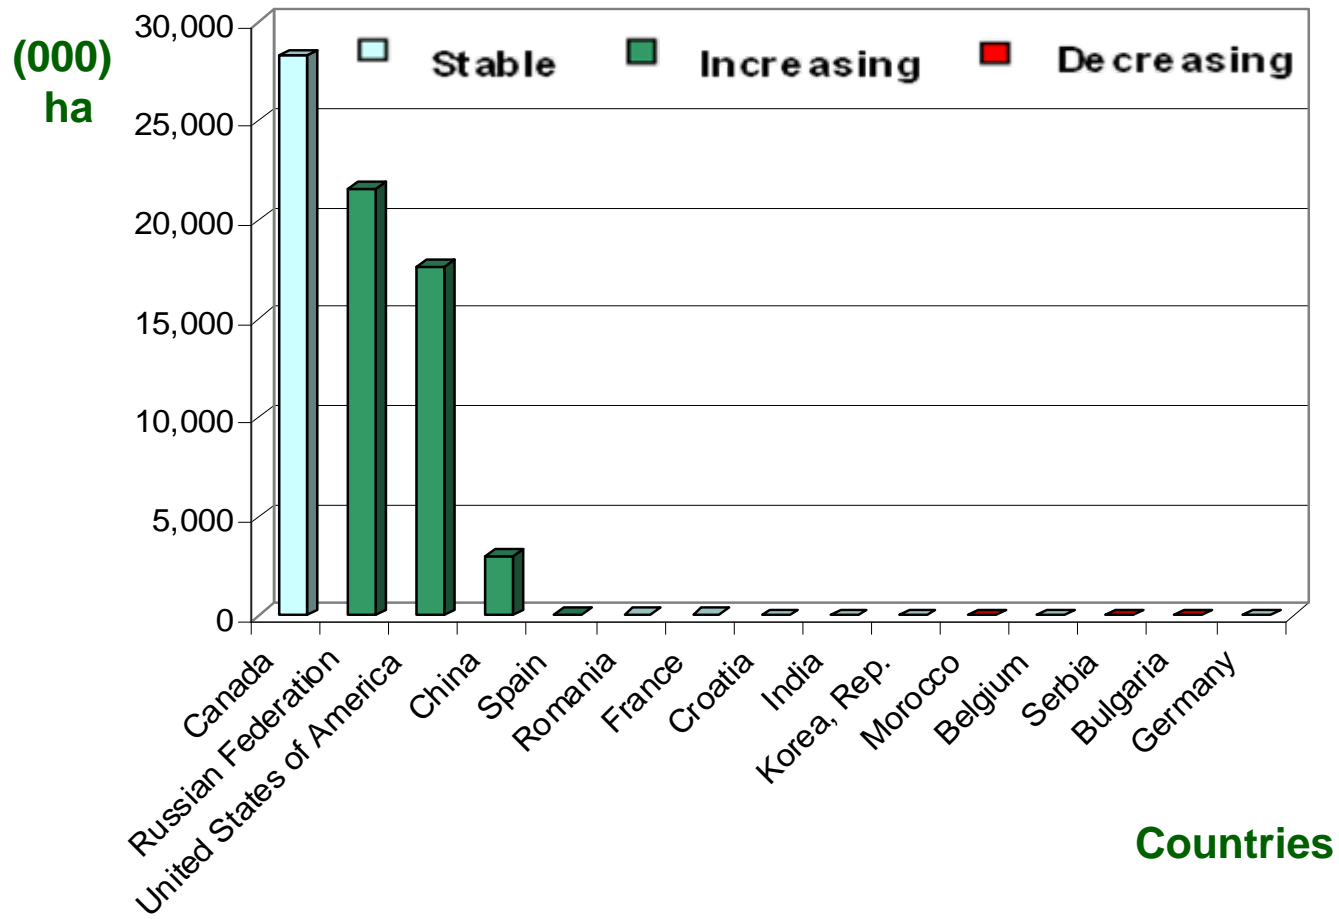

# Number of Cultivars reported by country

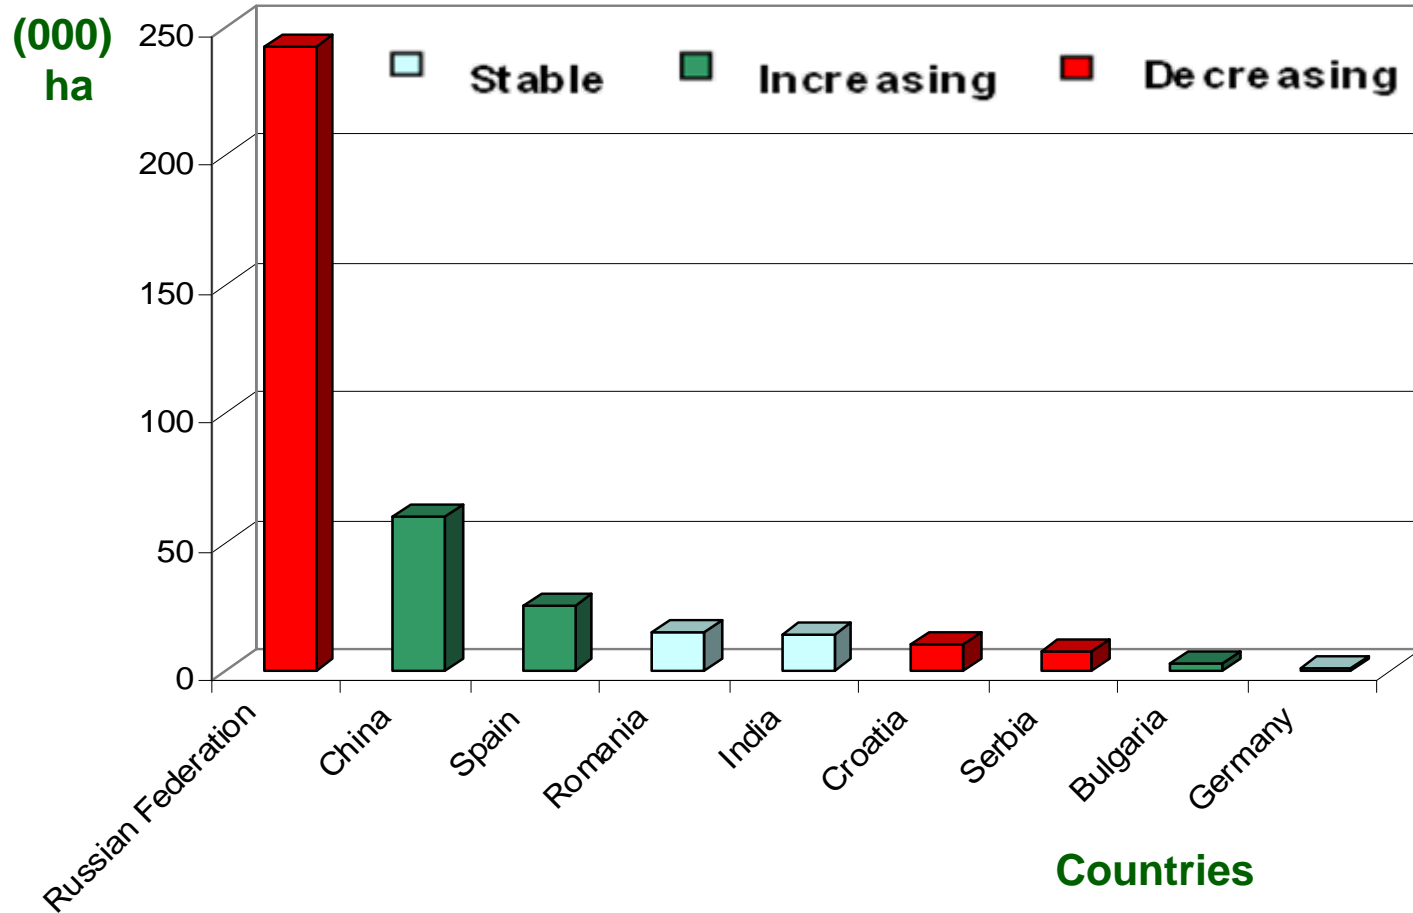

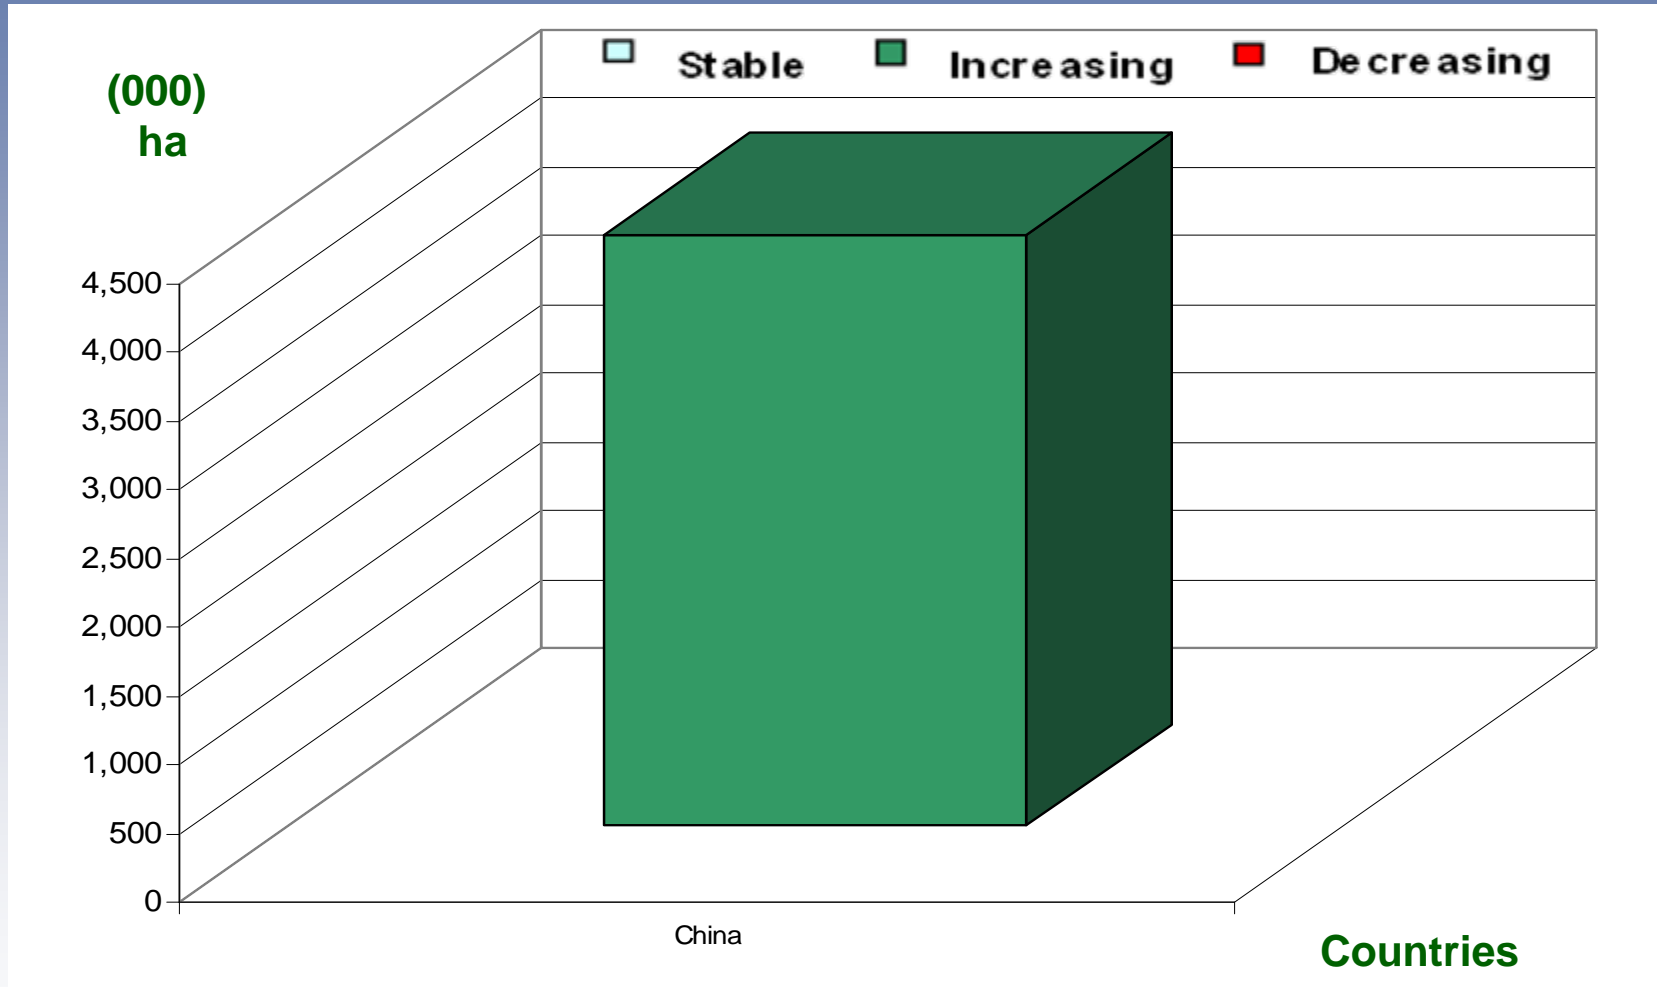

# Area Trends: Natural Forest - Poplars

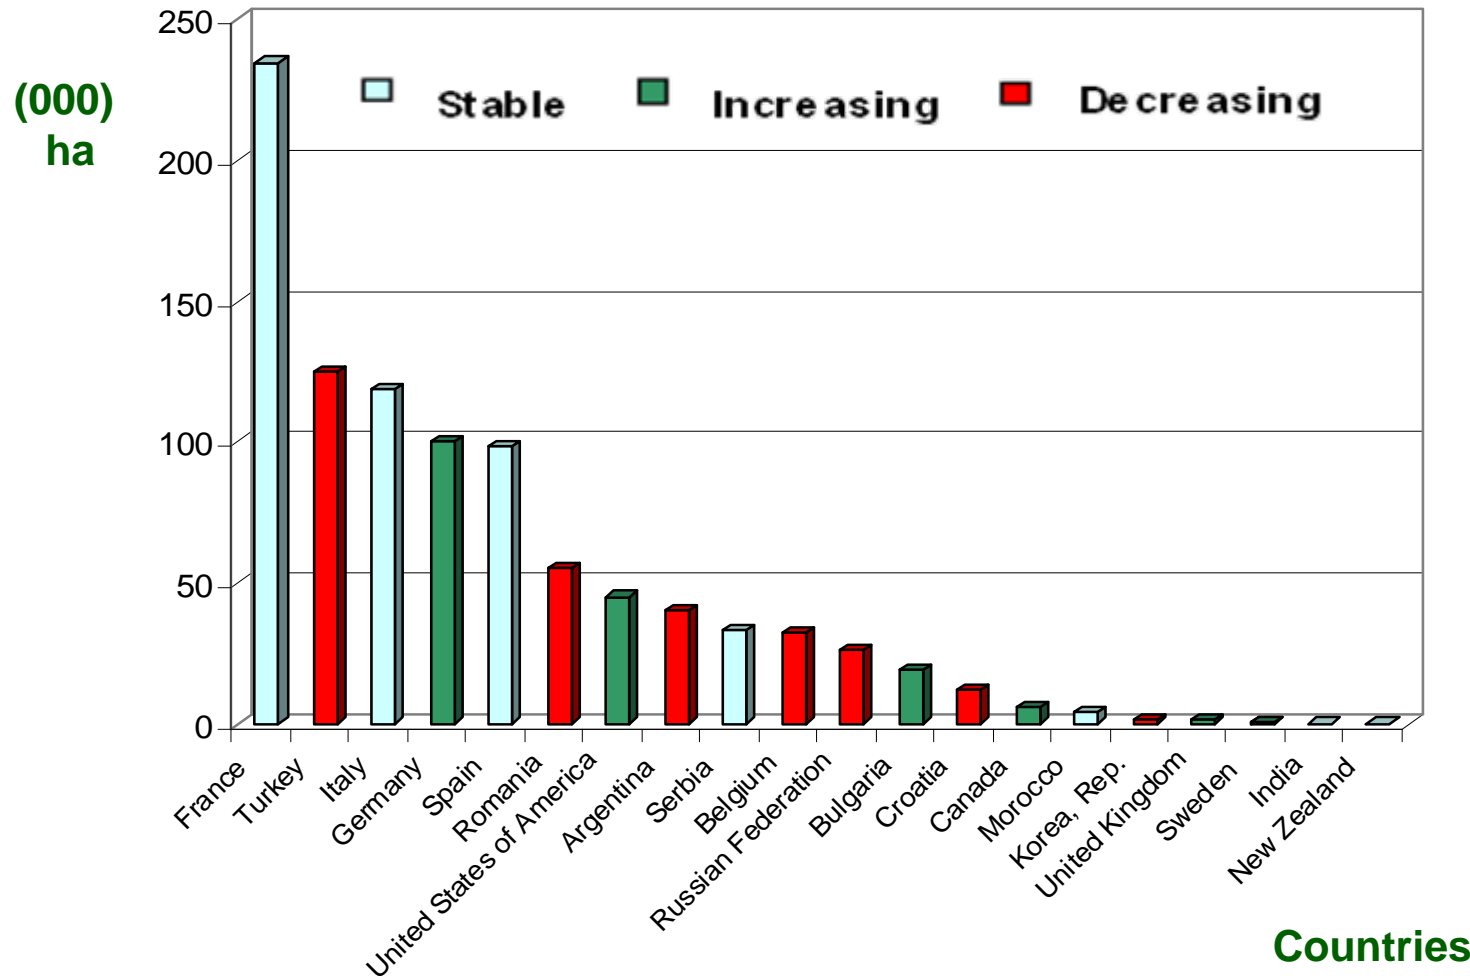

# Area Trends: Natural Forest - Willows

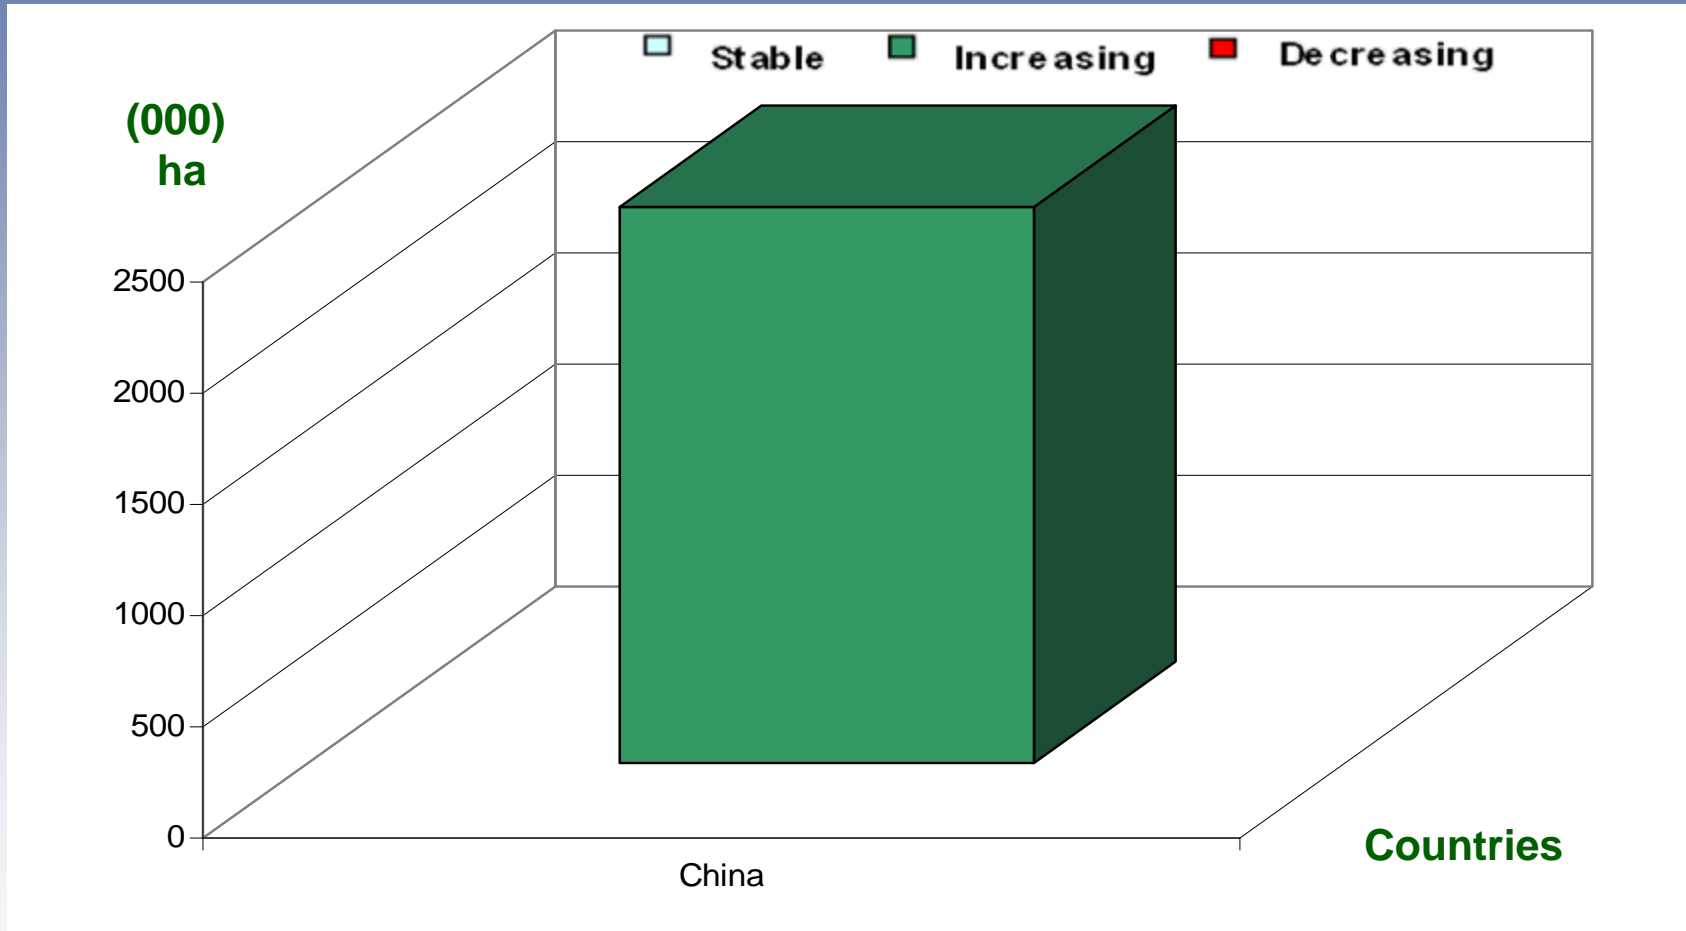

# Area Trends, Planted Forests, Poplars: China

# Area Trends Planted Forests: Other Countries

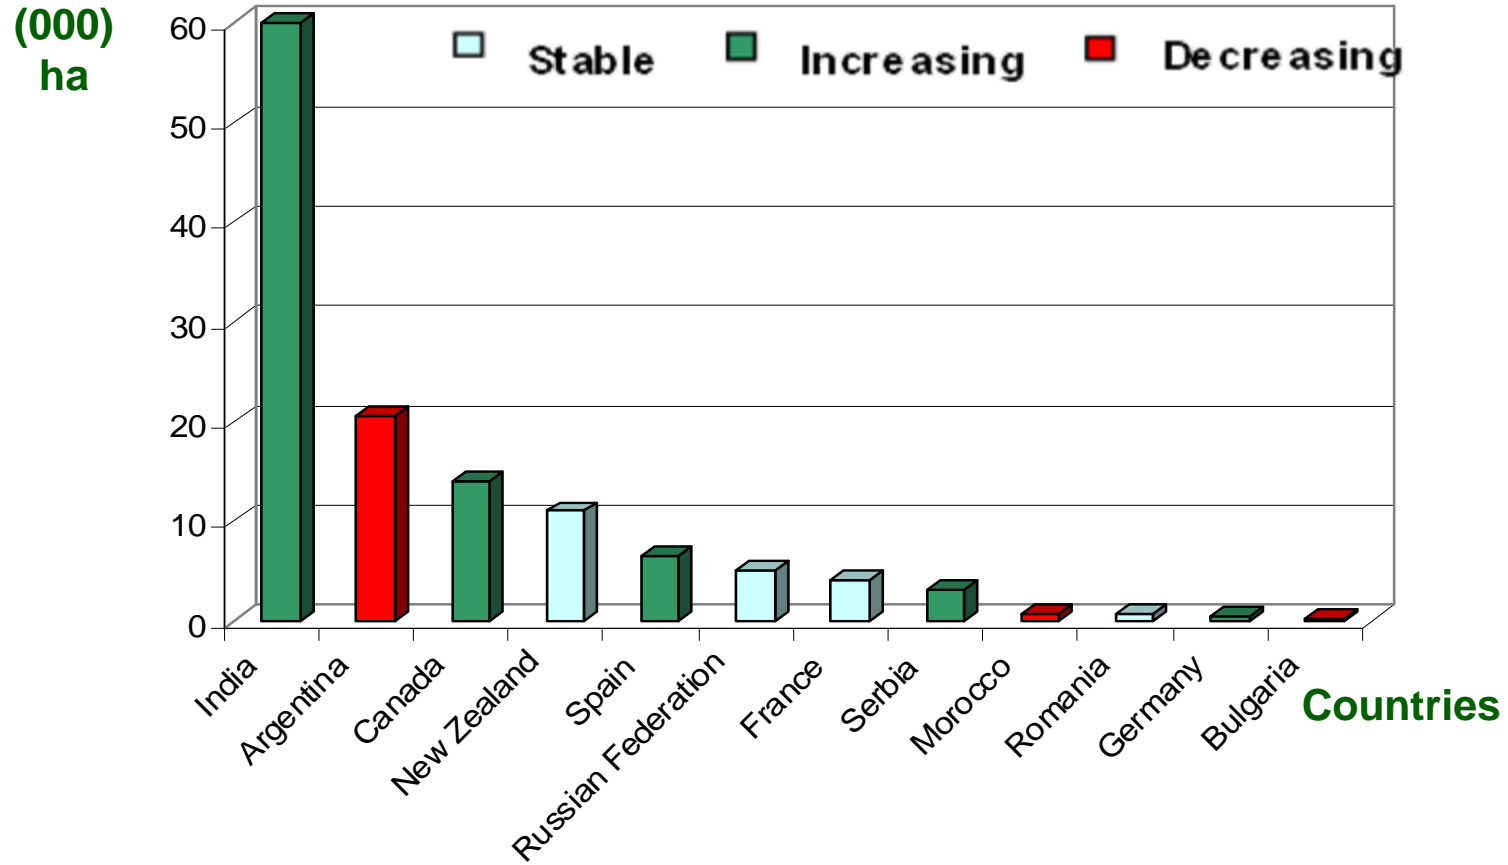

# Area Trends, Agroforestry/TOFs, Poplars: China

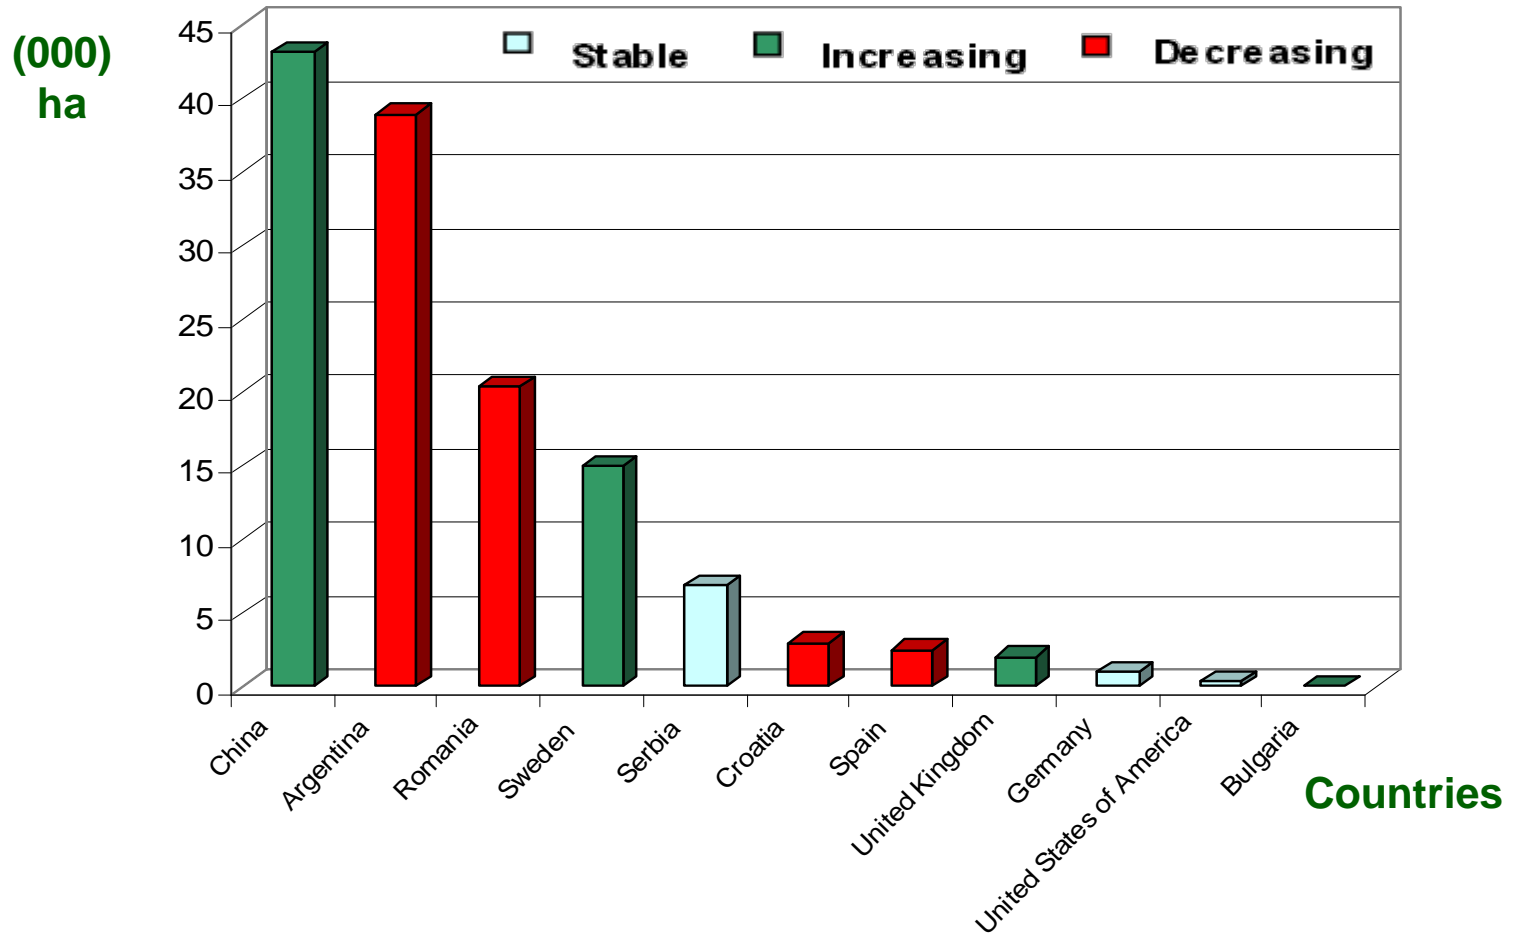

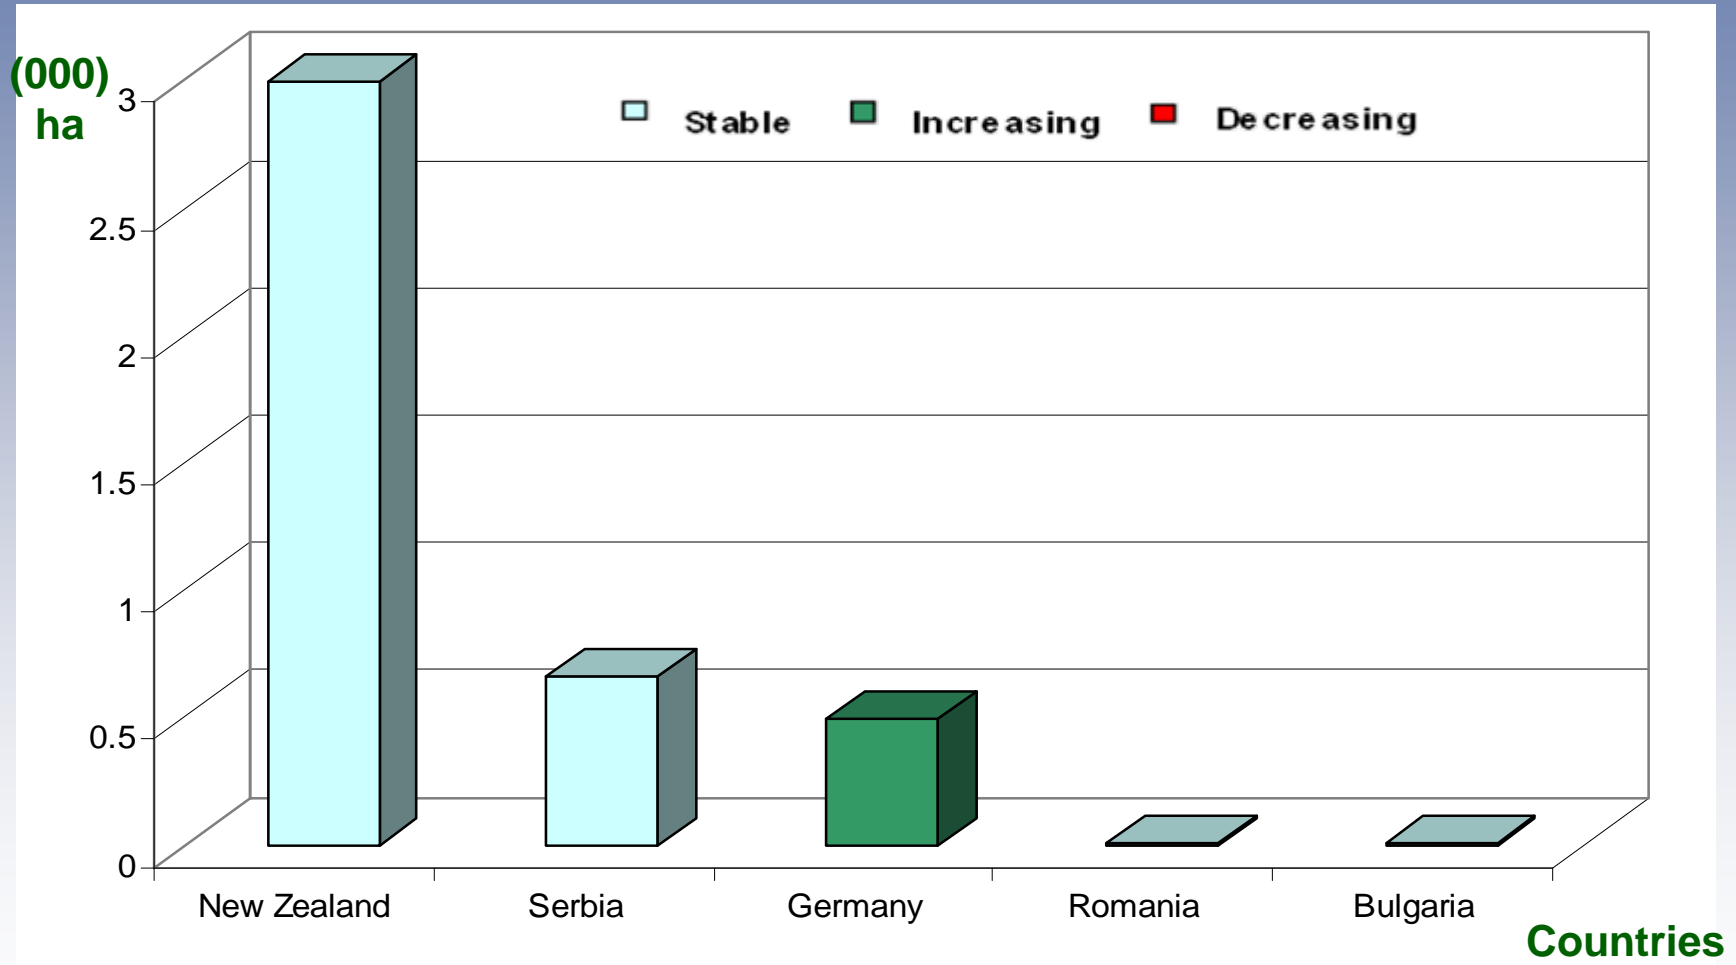

# Area Trends, Agroforestry/TOFs Poplars: Other Countries

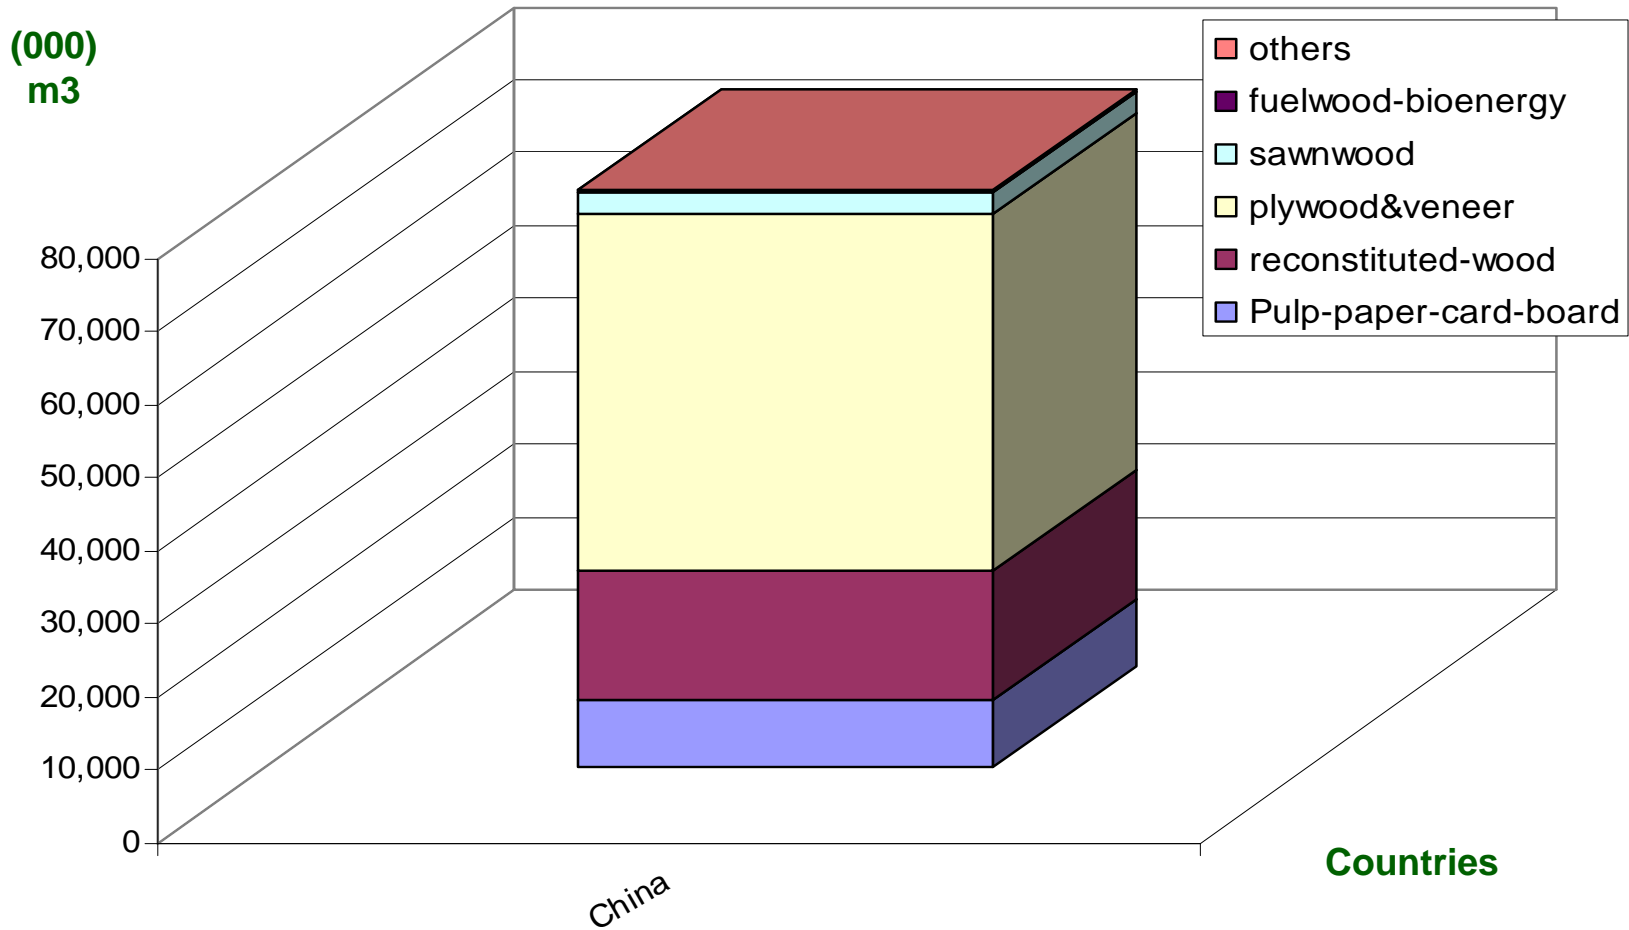

# Area Trends: Planted Forests - Willows

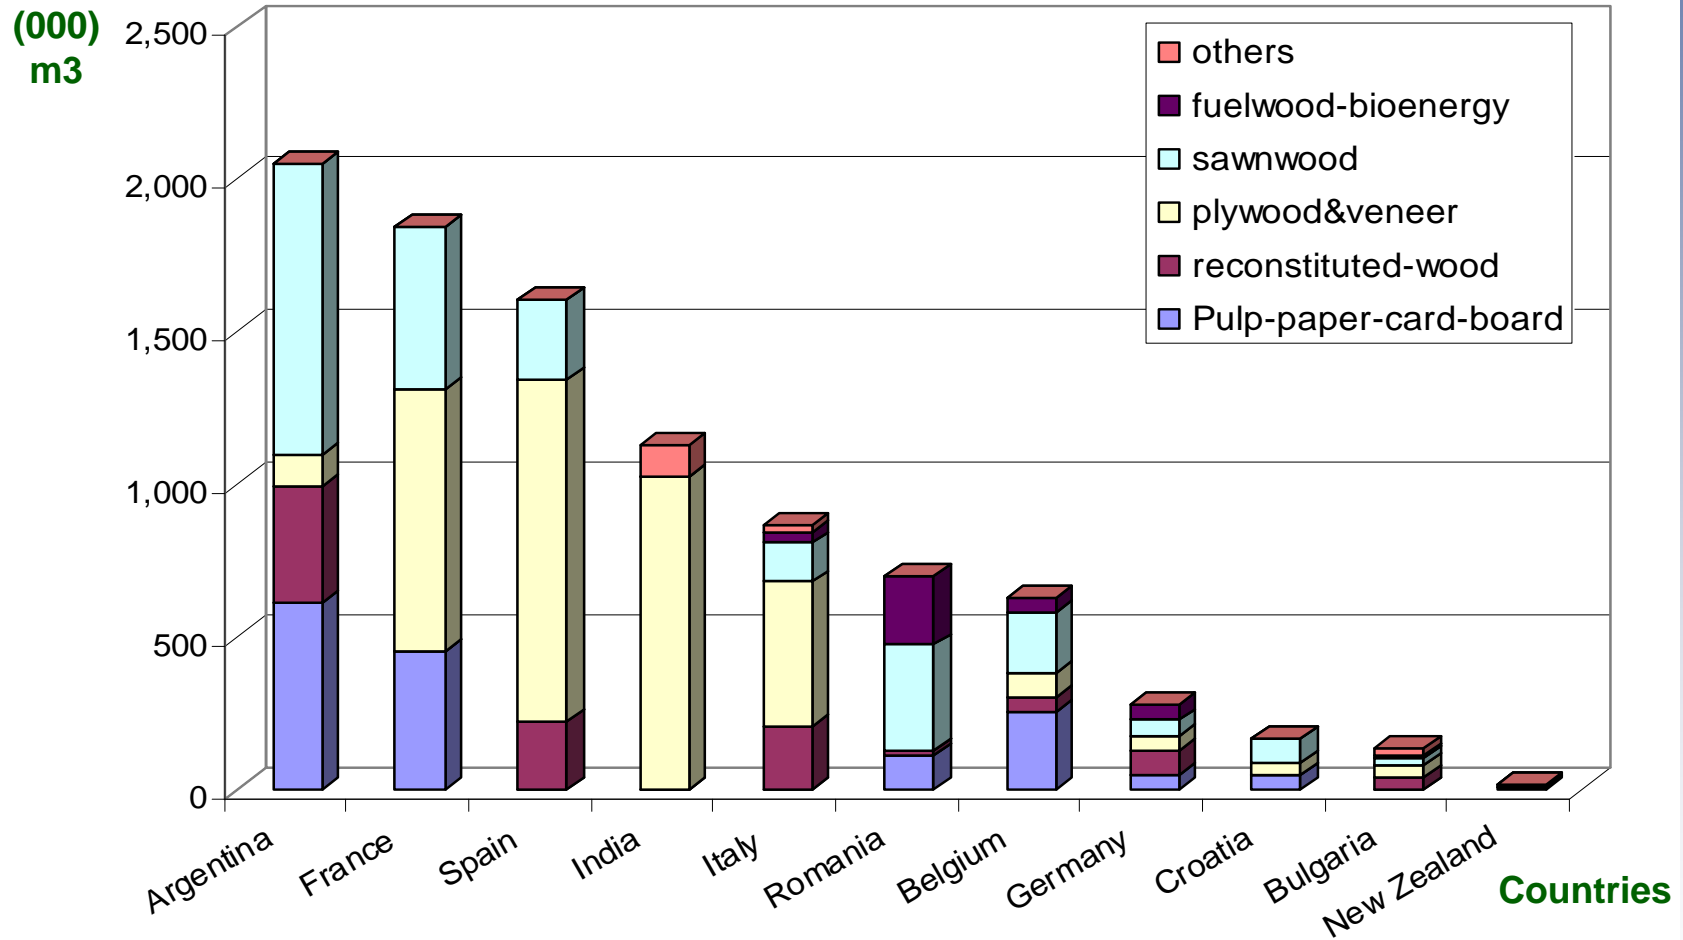

# Area Trends: Agroforestry/TOFs - Willows

# Main Poplar and Willow Products: China

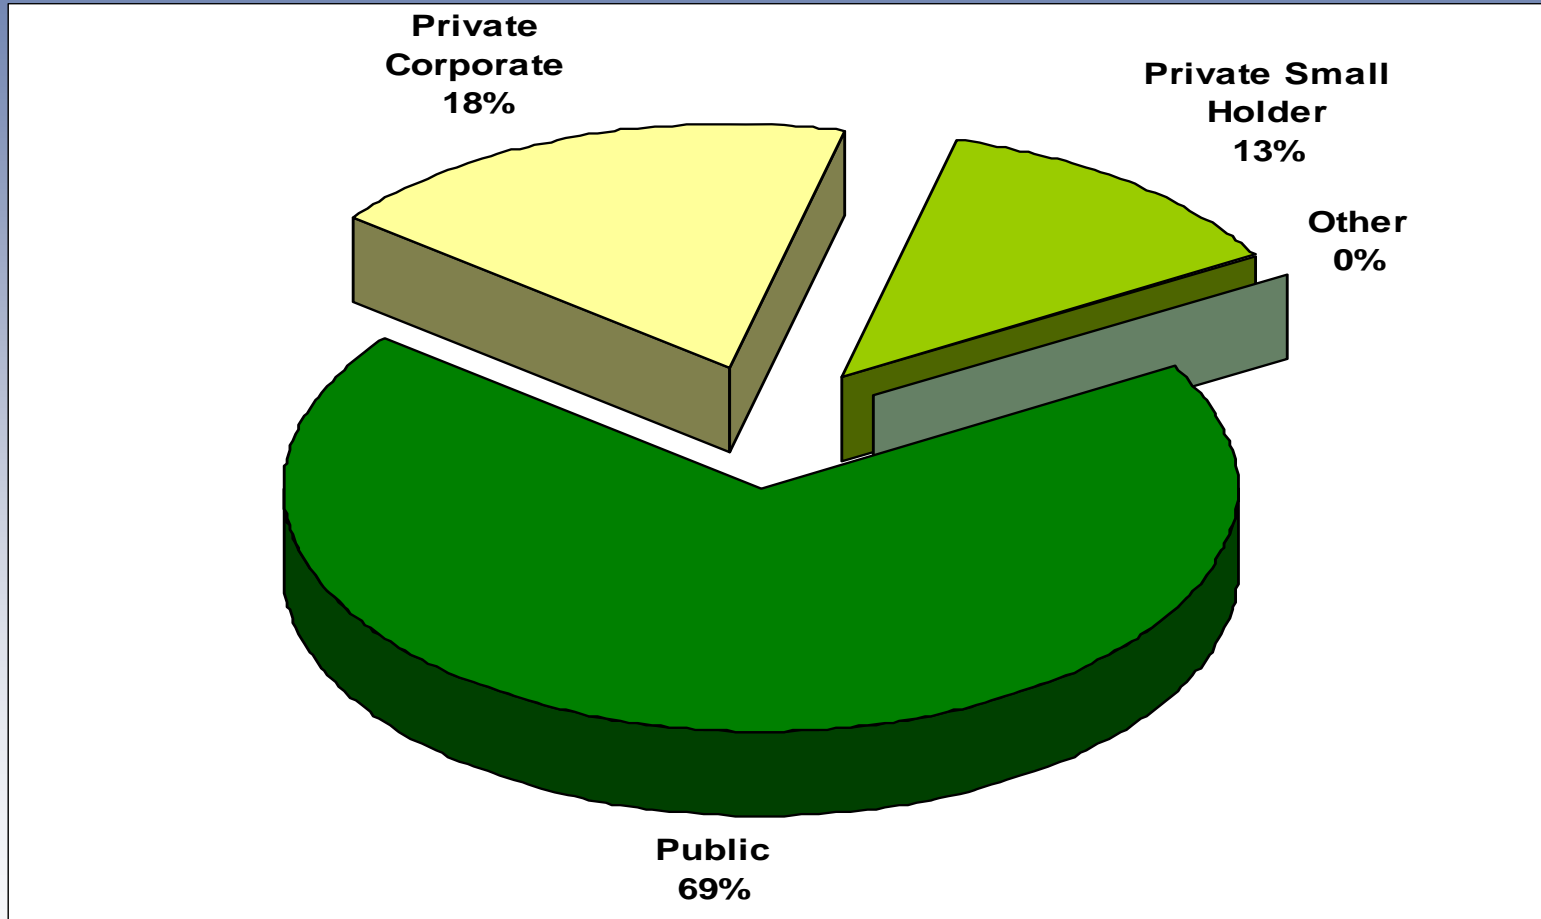

# Main Poplar and Willow Products: Other Countries

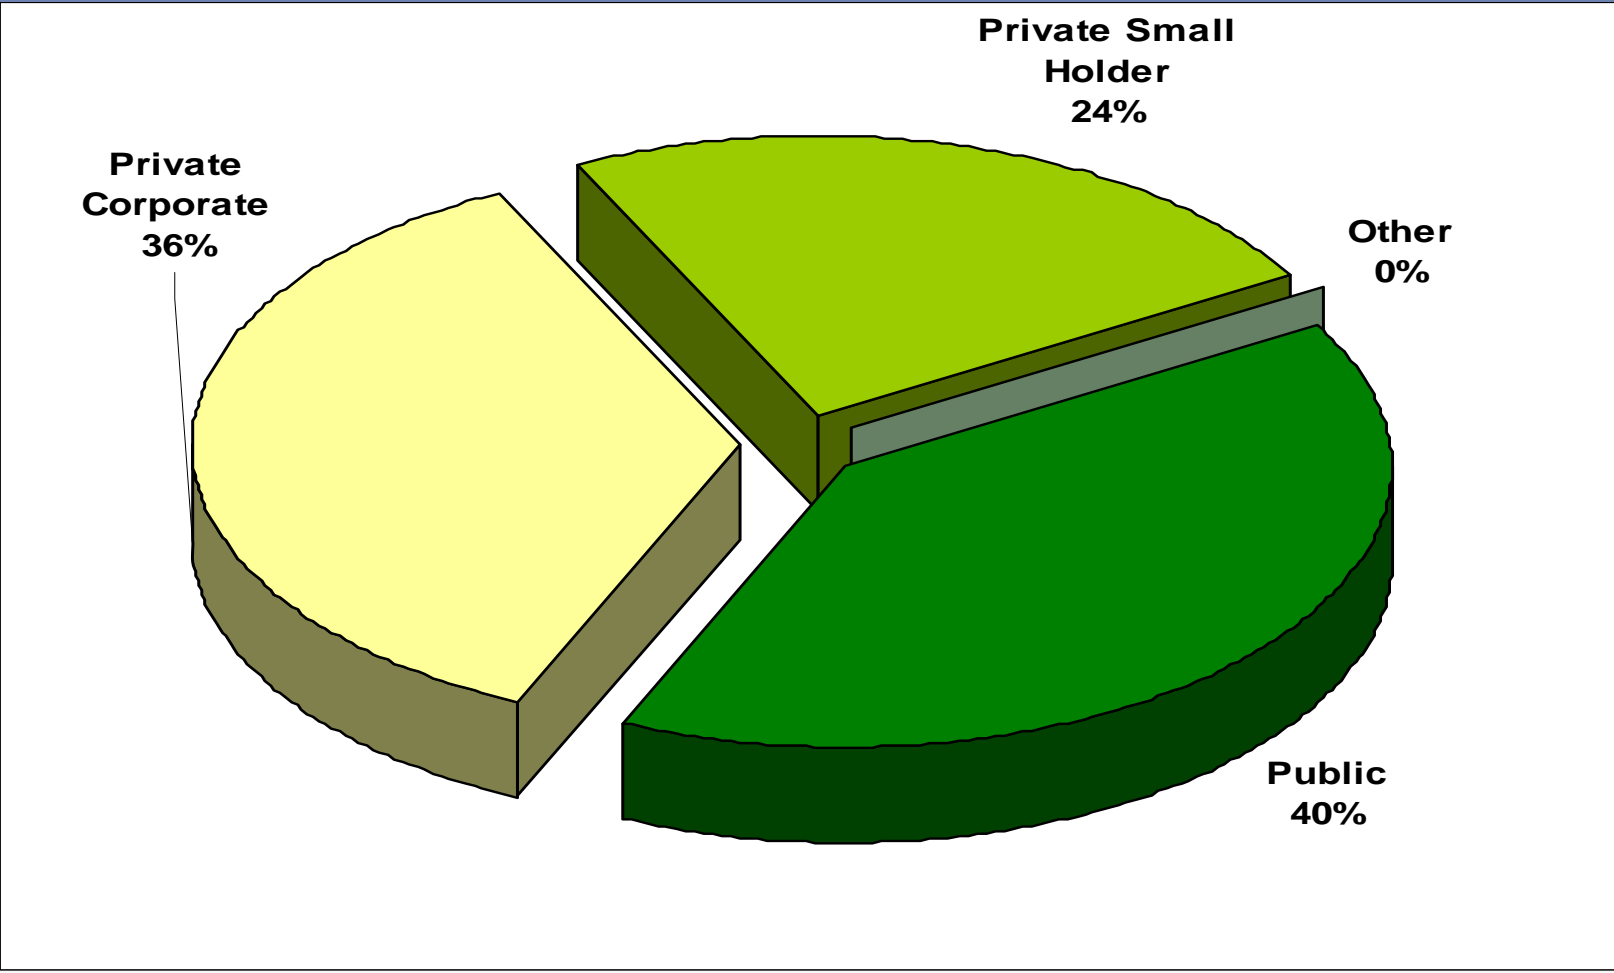

# Ownership of Natural Forests: Poplars & Willows

**Note: Global Natural Forests 71 million ha**

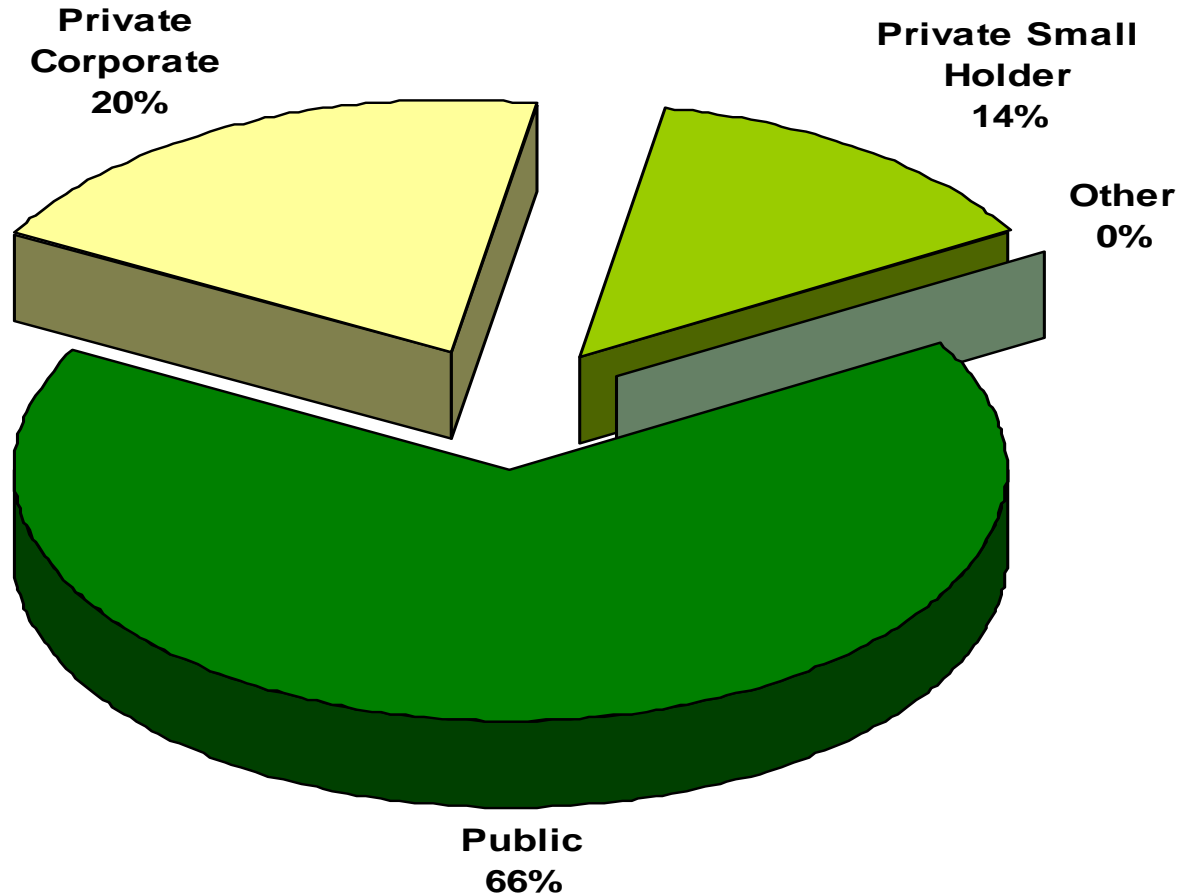

# Ownership: Planted/TOFs – Poplars & Willows

**Note: Global Planted Forests/Agroforestry/TOFs 8 m ha**

# Ownership: ALL Poplar & Willow

**Note: Global Poplars & Willows > 79 million ha**

# Observations

- Differences in reporting from 2004 assessment (2)
- Countries reported 2004 but not 2008 (3)
- USA reported statistics with no change 2004 to 2008
- FAO assumed 2004 data for countries not reporting in 2008
- Inconsistencies in questionnaire responses (e.g. area data differed between tables)
- Further FAO analysis & verification is required with Country Correspondents

**Thanks to correspondents who provided country data. We look forward to working with you to refine data & reporting**

Thank you for your attention
