

Green Up to Cool Down

*A movement of collaboration, restoration
and building a resilient future.*

Wednesday 4 May 2022
12:30 PM - 2:00 PM KST

The EverGreening the Earth Campaign aims to Green Up our planet to Cool it Down. The campaign is building a movement of community-led action to achieve the ambitious goal of capturing 20 billion tons of carbon annually by 2050. Through nature-based solutions we are scaling up efforts and connecting local and global actors. Join the Global EverGreening Alliance and our lineup of speakers to find out how you can join and play your part in the global movement to reverse climate change and restore our planet.
