

IN 2025/5

Dear Members,

We would like to inform members of a service which we believe could be useful for our members in Rome.

MedinAction is a medical service which delivers house call doctors and online consultation everywhere in Rome 24/7 depending on the medical case and distance. The service has a majority of English speaking doctors but also some French and Arabic speaking doctors, one can request a consultation as a house call or online consultation for a same day appointment (online and house calls: general practitioners and paediatricians). Doctors may be requested through their website or App

www.medinaction.com or

via email: Info@medinaction.com or

call or text via WhatsApp: +39 3755724686.

The service has a trusted clinic network for examinations and lab work as well as specialist referral. MedinAction also has a direct debit arrangement with CIGNA and has extensive experience working with WFP, IFAD (where they are also available for IFAD retirees through a walk-in arrangement).

FFOA provides this information but cannot vouch for the services rendered.

Best regards

FFOA Secretariat
